

Your floor safety experts.
Product directory 9

Hello,

We are pleased to present the latest edition of our Product Directory 9, featuring an expanded range of matting and GRP floor safety products.

Over the past year, we have worked closely with our customers to develop an exciting array of new products, including GroundTrak, Forklift Mat, additional GRP grating sizes, new GRP profiles, various electrical matting classes, and innovative access solutions, to name just a few. Every product is designed and manufactured with the end user in mind, prioritising safety, durability, and long-lasting performance.

In 2024, we also launched our NPS survey, and we extend our sincere thanks to everyone who participated. We are proud to report that our customers appreciate our swift service, dedication to quality, reliable stock levels, and our availability to provide support when needed.

We trust you will find this directory both helpful and informative. As always, we are just a phone call or email away should you require any assistance.

Neville Young
Managing Director

Features Glossary

	Slip Resistant		Water Absorbent
	Anti-Fatigue		Crush Resistant
	Wear Resistant		Soil Resistant
	Anti-Microbial		Chemical Resistant
	Connectable		Cut To Length
	Cut To Size		Decontamination Prevention
	Disability friendly		Dry Area
	Flame Retardant		Forklifts
	Heavy Area		Impact Resistant
	Made from 100% recycled materials		Medical Area
	Non-Conductive (Electrical)		Non-Conductive (HV Electrical)
	Non-Static (ESD)		Oily and Greasy Area
	UV Resistant		Washable to 30°C
	Washable to 40°C		Washable to 50°C
	Welding Area		Wet Zone
	Wheeled Area		

We have given effectiveness ratings from 1 (low) to 3 (high) to the six features highlighted above, as detailed throughout the directory. For more information, please see page 95.

Welcome

Why distributors choose us

We're a market-leading manufacturer of matting and GRP floor safety products, committed to innovation and delivering exceptional customer service. Our products are designed for the most demanding work and leisure environments, putting people's safety and welfare at the heart of everything we do.

Whether it's bustling airports, catering kitchens, construction sites, industrial facilities, or engineering environments, our extensive expertise and industry knowledge will help you make informed decisions when selecting the right flooring and safety products for you and your customers. We also offer custom-made solutions designed around your specific needs.

The Blue Diamond difference

If you're looking to work with a company that delivers outstanding customer service, offers the highest quality products, and always delivers on its promises, then look no further than Blue Diamond.

With expansive distribution facilities across multiple locations, an impressive one-hour turnaround for all enquiries, and a dedicated team expertly managing our extensive stock inventory, we ensure that your order is shipped on time, every time.

We're extremely passionate about our products, and that's because every single detail of the manufacturing process is closely monitored - from the choice of materials used to the procedures followed at our factories. We also like to work closely with our customers to ensure our product range meets their needs. Whether it's a new size, colour, or product altogether, just let us know, and we'll be more than happy to help.

At Blue Diamond, we pride ourselves on being different. Passion, speed, availability, and reliability are at the core of everything we do, always putting our customers at the forefront of our decision-making.

We're so confident in our products, we offer a lifetime warranty!

We take great pride in the quality of our matting and floor safety products. Each of our products undergoes rigorous testing at independent facilities and is certified to the highest standards.

The specific tests conducted depend on the product type and may include resistance for wear and tear, deflection rate (for underfoot comfort), slip resistance, critical fall height, fire resistance, electrical resistance, electrostatic discharge (ESD) rate, resistance to oil and chemicals resistance, and the presence of polycyclic aromatic hydrocarbon (PAH) and other chemical content. Further data is available by product type, including test reports, on request.

Once a product is in production, we use strict quality control processes to ensure a consistent standard across the run. Additionally, throughout the year, we also regularly quality check our products to ensure they consistently meet the evolving needs of our customers.

We're so confident in our testing and quality control processes that we offer a lifetime warranty against manufacturing defects on all Blue Diamond products.

Industrial

Anti-slip and anti-fatigue matting for people who work on their feet.

Ensuring the safety and well-being of your employees and visitors is our top priority. We offer an extensive range of safety matting solutions to suit every environment. Our products include anti-fatigue mats, rubber and vinyl mats, interlocking and non-interlocking mats, protective flooring, moisture and dirt control solutions, electrical protection mats, dissipative floor and workbench mats, as well as floor tapes and cable protection.

Prolonged standing on cold, hard floors can lead to fatigue and various health issues. Coupled with the risk of slips, trips, and falls, these conditions can result in decreased productivity and increased absenteeism, costing employers millions each year. That's why our products are thoughtfully designed for every application and working condition, from light-duty to heavy footfall. We're confident that if you need it, we will have it!

Kumfi Rib

- ◆ Light-duty anti-fatigue mat.
- ◆ Made from closed-cell vinyl foam that relieves leg and back discomfort.
- ◆ Ribbed surface offers traction and grip.
- ◆ Anti-trip bevel edges for added safety.
- ◆ Product can be cut to size to fit any work areas.
- ◆ Material: Microcellular vinyl.
- ◆ Overall height: 9.4mm.

Code	Metric	Imperial	Type
KR2436	60cm x 90cm	2' x 3'	Mats
KR3660	90cm x 150cm	3' x 5'	
KR310	90cm x 300cm	3' x 10'	
KR4872	120cm x 180cm	4' x 6'	
KR260	60cm x 18.3m	2' x 60'	Rolls
KR360	90cm x 18.3m	3' x 60'	
KR460	120cm x 18.3m	4' x 60'	
KR24	60cm wide	2' wide	Cut length - per m
KR36	90cm wide	3' wide	
KR48	120cm wide	4' wide	

Black only

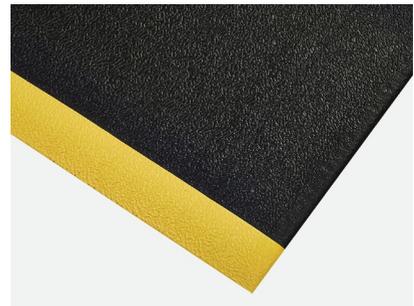

Typical applications: Manufacturing plants, assembly lines, picking and packing workstations, logistics warehouses, industrial and laboratory environments and service counters

Kumfi Pebble

- ◆ Light-duty anti-fatigue mat.
- ◆ Made from closed-cell vinyl foam with pebble surface for added traction and grip.
- ◆ Yellow edged option for added safety awareness.
- ◆ Anti-trip bevel edges on all sides.
- ◆ Product can be cut to size to fit any work areas.
- ◆ Material: Microcellular vinyl.
- ◆ Overall height: 9.4 mm.

Code	Metric	Imperial	Type
KP2436	60cm x 90cm	2' x 3'	Mats
KP3660	90cm x 150cm	3' x 5'	
KP310	90cm x 300cm	3' x 10'	
KP4872	120cm x 180cm	4' x 6'	
KP260	60cm x 18.3m	2' x 60'	Rolls
KP360	90cm x 18.3m	3' x 60'	
KP460	120cm x 18.3m	4' x 60'	
KP24	60cm wide	2' wide	Cut length - per m
KP36	90cm wide	3' wide	
KP48	120cm wide	4' wide	

Typical applications: Manufacturing plants, assembly lines, picking and packing workstations, logistics warehouses, industrial and laboratory environments and service counters

Diamond Interlock

- ◆ Heavy duty, interlocking rubber mat for simple on-site installation in dry industrial environments.
- ◆ Easily connectable to make long continuous lengths, with trip resistant bevels on all sides.
- ◆ Deckplate design and moulded air pockets underneath provide traction and ergonomic benefits.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 14mm.

Black only

Suitable for indoor use

Typical applications: Workshops, production lines, assembly areas and picking and packing stations

Code	Metric	Imperial	Type
DC2831	71cm x 78cm	2' x 3'	Centre tile
DE2831	71cm x 78cm	2' x 3'	End tile

Tuff-Tile Diamond

- ◆ Interlocking non-slip tile system with moulded cellular structure for outstanding comfort and durability.
- ◆ Resistant to most solvents and chemicals.
- ◆ Protects existing floors by reducing damage caused by impact, abrasion, and vibration.
- ◆ Quick and simple to install with ramped edges for added safety. Suitable for wheeled use.
- ◆ Material: 100% recycled PVC.
- ◆ Overall height: 14mm.
- ◆ Bevel edges sold separately.

Black in stock, other colours available on request.

Bevels available in both black and yellow

Suitable for indoor and outdoor use

Typical applications: Garages, workshops, warehouses, factories, schools, exhibitions and events, residential areas and sport and leisure facilities

Code	Metric	Imperial	Type
TTD2020 (single)	50cm x 50cm	2' x 2'	Tiles
TTD2020-4 (pack of 4)	50cm x 50cm	2' x 2'	
TTD2020-9 (pack of 9)	50cm x 50cm	2' x 2'	
TTD20M (single)	50cm x 6cm	2' x 2"	Bevel Male
TTD20M-4 (pack of 4)	50cm x 6cm	2' x 2"	
TTD20F (single)	50cm x 6cm	2' x 2"	Bevel Female
TTD20F-4 (pack of 4)	50cm x 6cm	2' x 2"	

Tuff-Tile HD Textured

- ◆ Heavy duty, non-slip interlocking tile system designed to provide excellent durability and comfort.
- ◆ Resistant to most solvents and chemicals.
- ◆ Protects existing floors by reducing damage caused by impact, abrasion, and vibration.
- ◆ Quick and simple to install with ramped edges to prevent trips and falls. Suitable for wheeled use.
- ◆ Material: 100% recycled PVC.
- ◆ Overall height: 7mm.
- ◆ Bevel edges and corners sold separately.

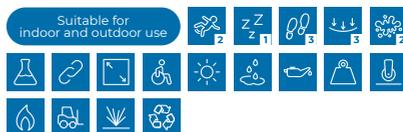

Black in stock, other colours available on request

Bevels and corners available in both black and yellow

Code	Metric	Imperial	Type
TT2020 (single)	50cm x 50cm	2' x 2'	Tiles
TT2020-4 (pack of 4)	50cm x 50cm	2' x 2'	
TT2020-9 (pack of 9)	50cm x 50cm	2' x 2'	
TT20B (single)	50cm x 7.5cm	2' x 3"	Bevel Edge
TT20B-4 (pack of 4)	50cm x 7.5cm	2' x 3"	
TT20C (single)	5cm x 5cm	2" x 2"	Corner
TT20C-4 (pack of 4)	5cm x 5cm	2" x 2"	

Typical applications: Manufacturing plants, assembly lines, warehouses (picking, packing), workstations, garages, workshops, schools, exhibitions, events, residential, sport facilities

Tuff-Tile PennyDot

- ◆ Interlocking non-slip tile system with a cellular structure for excellent durability and comfort.
- ◆ Resistant to most solvents and chemicals.
- ◆ Protects existing floors by reducing damage caused by impact, abrasion, and vibration.
- ◆ Quick and simple to install with ramped edges for added safety. Suitable for wheeled use.
- ◆ Material: 100% recycled PVC.
- ◆ Overall height: 12mm.
- ◆ Bevel edges sold separately - product uses Tuff-Tile Diamond Bevels

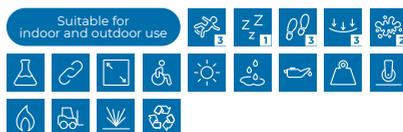

Black in stock, other colours available on request

Bevels available in both black and yellow

Code	Metric	Imperial	Type
TTP2020	50cm x 50cm	2' x 2'	Tile
TTD20M	50cm x 6cm	2' x 2"	Bevel Male
TTD20F	50cm x 6cm	2' x 2"	Bevel Female

Typical applications: Manufacturing plants, assembly lines, warehouses (picking, packing), workstations, garages, workshops, schools, exhibitions, events, residential, sport facilities

Cushion Link Open Top – General Purpose

- ◆ Modular anti-fatigue matting system, offering outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Open top design for excellent drainage and swarf removal.
- ◆ Material: High quality natural rubber, recycled rubber and 25% nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Compatible with Cushion Link Solid Top range.
- ◆ Bevel edges sold separately.

Code	Metric	Imperial	Type
CLO36GP	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Industrial and manufacturing areas

Cushion Link Open Top – 100% Nitrile

- ◆ Modular anti-fatigue matting system, offering outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Open top design for excellent drainage and swarf removal.
- ◆ High quality resilient rubber, resistant to extreme temperatures and most chemicals and oils.
- ◆ Material: Nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Compatible with Cushion Link Solid Top range.
- ◆ Bevel edges sold separately.

Black only

Bevels available in both black and yellow

Code	Metric	Imperial	Type
CLO36NFR	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Oily, greasy, welding and manufacturing areas

Cushion Link Solid Top – General Purpose

- ◆ Modular matting for outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Anti-slip textured surface with unique underside design for superb anti-fatigue properties.
- ◆ Material: High quality natural rubber, recycled rubber and 25% nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Compatible with Cushion Link Open Top range.
- ◆ Bevel edges sold separately.

Code	Metric	Imperial	Type
CLS36GP	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Industrial and manufacturing areas

Cushion Link Solid Top – 100% Nitrile

- ◆ Modular matting for outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Anti-slip textured surface with unique underside design for superb anti-fatigue properties.
- ◆ High quality resilient rubber compounds, resistant to extreme temperatures and most chemicals and oils.
- ◆ Material: Nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Compatible with Cushion Link Open Top range.
- ◆ Bevel edges sold separately.

Code	Metric	Imperial	Type
CLS36NFR	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Oily, greasy, welding and manufacturing areas

Cushion Link Solid Top – Abrasive 100% Nitrile

- ◆ Modular matting for outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Highly abrasive surface ensures exceptional anti-slip protection, while the unique underside design delivers superb anti-fatigue properties.
- ◆ High quality resilient rubber compounds, resistant to extreme temperatures.
- ◆ Material: Nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Compatible with Cushion Link Open Top range.
- ◆ Bevel edges sold separately.

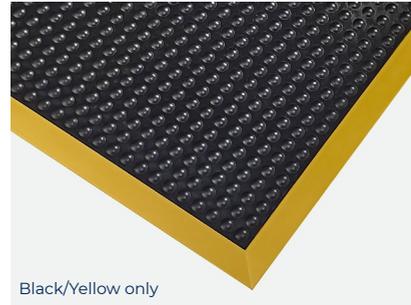

Code	Metric	Imperial	Type
CLS36NFRA	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Oily, greasy, welding and manufacturing areas

Ergotred

- ◆ Versatile anti-fatigue loose lay mat providing superb worker comfort at a very economical price.
- ◆ Made from heavy duty flexible rubber known for its 5-star comfort rating.
- ◆ Bevelled yellow safety edges and suction cup backing for enhanced anti-slip properties.
- ◆ Domed surface texture for improved circulation and provides a comfortable massaging effect.
- ◆ Material: Natural rubber.
- ◆ Overall height: 14.5mm.

Suitable for indoor use

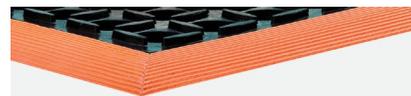

Code	Metric	Imperial
ER2436	60cm x 90cm	2' x 3'
ER3648	90cm x 120cm	3' x 4'

Typical applications: Industrial and manufacturing environments, storage facilities, workshops, warehouses, security guard rooms, commercial offices, kennels, livery enclosures and dog grooming areas

Oilzone

- ◆ High quality anti-fatigue matting, resistant to oils and harsh chemicals.
- ◆ Drainage holes and raised studs allow fluids and debris to fall through, leaving a dry, safe and comfortable work surface.
- ◆ Aggressive slip resistant surface.
- ◆ Highly visible orange bevelled borders on three sides for added safety.
- ◆ Material: 100% nitrile rubber.
- ◆ Overall height: 22mm.

Suitable for wet or dry, metal work, fluids, oils and chemicals usage

We also offer **Oilzone Custom**, a customised version of Oilzone tailored to any shape or size, with or without beveled edges

Code	Metric	Imperial
OZ2640	66cm x 102cm	2' x 3'
OZ3864	97cm x 163cm	3' x 5'
OZ310	97cm x 315cm	3' x 10'
OZ-CSM	Per m ²	

Typical applications: Oily machine areas, manufacturing plants, production lines, assembly lines, CNC machines, metal working for individual workstations and custom work platforms

Cellmax

- ◆ Economical rubber duckboard matting for worker comfort and safety.
- ◆ Cellular slip-resistant surface.
- ◆ Straight edges for easy joining with connectors, to cover large areas and around machinery.
- ◆ Octagonal drainage holes and raised edging ensure a clear surface by allowing fluid and debris to fall through.
- ◆ Designed for heavy and regular usage over a long period.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 22mm.
- ◆ Wind load tested: Up to 60mph.

Black only

Connector

Code	Metric	Imperial	Type
CM3959	100cm x 150cm	3' x 5'	Mat
CMC	7cm x 7cm	3" x 3"	Connector

Typical applications: Industrial, construction and manufacturing environments, can be used for roof walkway matting

Utility

- ◆ Hard wearing multi-purpose mat with anti-slip textured surface.
- ◆ Drainage channels and holes keep the surface clear of dirt and water.
- ◆ Built in bevelled edge for added trip resistance (120cm x 180cm mat only).
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 10mm.

Black only

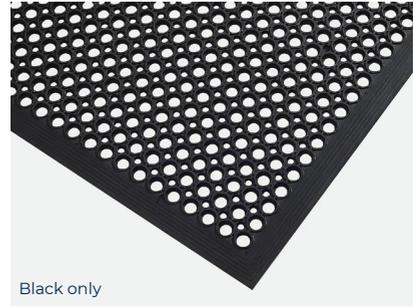

Code	Metric	Imperial	Type
UT4872	120cm x 180cm	4' x 6'	Mat
UT3916	100cm x 5m	3' x 16'	Rolls
UT3933	100cm x 10m	3' x 33'	

Typical applications: Construction, distribution, industrial and engineering environments, can also be used for roof walkways

Workzone

- ◆ Multi-purpose hardwearing mat, provides excellent anti-fatigue benefits.
- ◆ Anti-slip surface and bevelled edges on all four sides ensure worker comfort and safety.
- ◆ Honeycomb design traps swarf and disperses liquids quickly, leaving the surface clear.
- ◆ Available in a range of sizes to suit any environment.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

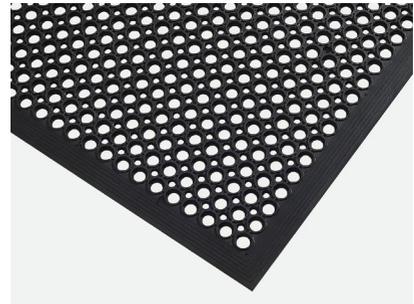

Code	Metric	Imperial	Type
WZ2436	60cm x 90cm	2' x 3'	Mats
WZ3248	80cm x 120cm	3' x 4'	
WZ3660	91cm x 150cm	3' x 5'	
WZ310	91cm x 3m	3' x 10'	Rolls
WZ320	91cm x 6m	3' x 20'	

Typical applications: Industrial, construction and manufacturing environments, production and assembly lines, workshops, distribution centres and individual workstations and custom work platforms

Workzone – 75% Nitrile

- ◆ Multi-purpose oil and grease resistant mat with anti-slip surface and bevels on all sides to ensure safety.
- ◆ Open top design quickly disperses liquids, leaving the surface clear.
- ◆ Provides excellent anti-fatigue benefits.
- ◆ Available in a range of sizes to suit any environment.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

Typical applications: Oily machine areas, workshops and industrial, commercial, residential, construction and distribution environments

Code	Metric	Imperial	Type
WZN3660	91cm x 150cm	3' x 5'	Mat

Safety Scrape

- ◆ Exceptional anti-slip mat with moulded scrapers to remove heavy dirt and swarf from shoes and boots.
- ◆ Welding safe and resistant to oils, grease and chemicals.
- ◆ Rubber gripper backing ensures the mat remains firm underfoot even in wet or oily areas.
- ◆ Material: 100% nitrile rubber.
- ◆ Overall thickness: Ultra-low profile of 5mm.

Black only

Code	Metric	Imperial
SS2436	60cm x 90cm	2' x 3'
SS3660	85cm x 150cm	3' x 5'
SS310	85cm x 300cm	3' x 10'
SS4872	113cm x 180cm	4' x 6'
SS410	113cm x 300cm	4' x 10'

Typical applications: Workshop entrances, engineering workshops, kitchens, production areas, welding areas as well as external entrances

Happy Feet

- ◆ Heavy duty anti-fatigue mat with bevelled borders and gripper backing for added safety.
- ◆ 12.7mm dense foam cushion and nitrile rubber surface for exceptional anti-fatigue qualities.
- ◆ Welding safe; grease/oil/petroleum proof; chemical resistant; ESD rating of electrically conductive.
- ◆ Mats surface is penetration proof and borders will not crack or curl.
- ◆ Safe for use in computer rooms and other static sensitive areas.
- ◆ Material: Nitrile rubber.
- ◆ Overall thickness: 12.7mm.

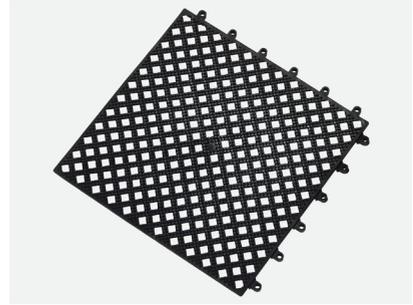

Code	Metric	Imperial
HF2436	58cm x 85cm	2' x 3'
HF3660	85cm x 150cm	3' x 5'

Typical applications: Industrial applications including welding areas and static sensitive areas

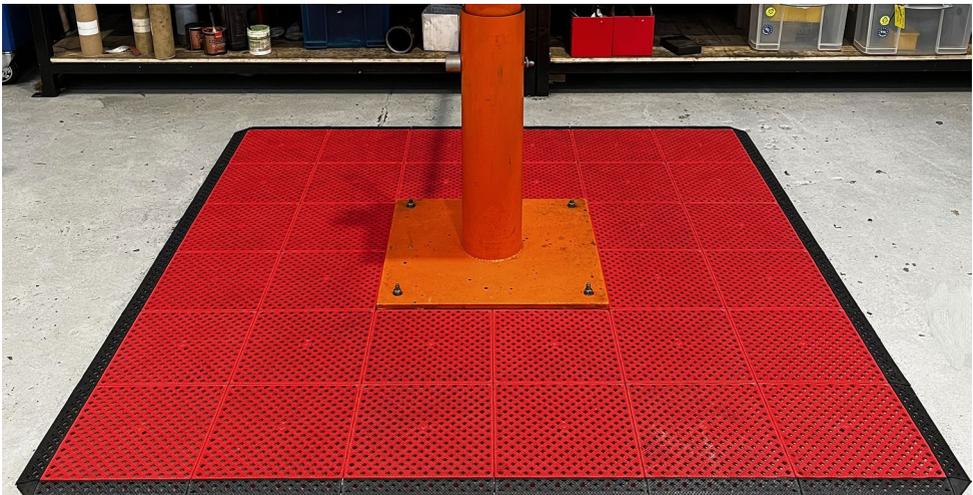

Kumfi Tile PVC

- ◆ A very versatile high grip interlocking matting system that allows rapid extension or adaption of work areas.
- ◆ Designed to provide exceptional anti-fatigue comfort and anti-slip safety.
- ◆ Free flowing 4-way drainage design means the system is effective for indoor and outdoor, dry, wet, oily and greasy environments.
- ◆ Simple and effective interlocking system ensures a firm, quick joint which can be easily, but not accidentally released.
- ◆ Lays to fit awkward shapes in any colour combination.
- ◆ Easy to clean - simply unclips into small sections.
- ◆ Material: Soft PVC.
- ◆ Overall height: 12mm.

Code	Metric	Imperial	Type
KT1212	30cm x 30cm	12" x 12"	Tile
KT1202	30cm x 5cm	12" x 2"	Bevel Edge

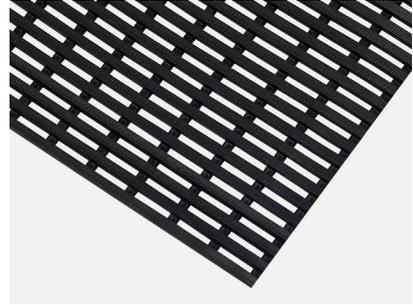

Typical applications: Commercial and industrial applications including exhibitions, hospitals, hotels, kitchens and catering facilities, leisure and sporting venues, kennels, livery enclosures and animal grooming areas

Interflex

- ◆ Ultimate multi-use slip resistant mat, designed to withstand extensive foot traffic.
- ◆ Two-layer construction and channelled underbars automatically self-drain when faced with large amounts of water, oil, grease, or chemicals.
- ◆ The mats embossed surface provides exceptional grip, whilst the anti-microbial and anti-fungal additives ensure excellent hygiene.
- ◆ Easy to cut and contours to uneven surfaces, UV resistant.
- ◆ Excellent sound absorption properties.
- ◆ Resistant to most acids, alkaline and oils.
- ◆ Material: Flexible PVC, 100% recyclable.
- ◆ Overall height: 11mm.
- ◆ Connector clips for side or end joining - sold separately.

Code	Metric	Imperial	Type
IF2433	60cm x 10m	2' X 33'	Rolls
IF3233	80cm x 10m	3' x 33'	
IF3933	100cm x 10m	3' x 33'	
IF24	60cm wide	2' wide	Cut length - per m
IF32	80cm wide	3' wide	
IF39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

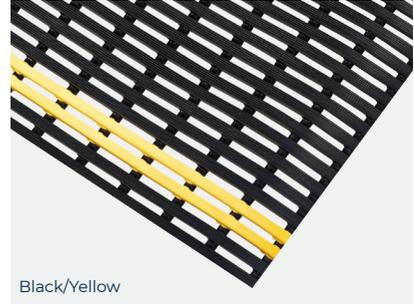

Typical applications: Perfect for all wet environments plus welding, oily and heavy industrial areas, machine workshops.

Interflex Hazard

- ◆ Hardwearing anti-slip resistant mat, designed to self drain making it suitable for outdoor and indoor use.
- ◆ High visibility yellow strips for workplace safety.
- ◆ Suitable for heavy duty industrial use where slip hazards exist.
- ◆ Oil, grease and chemical resistant.
- ◆ Material: Soft PVC.
- ◆ Overall height: 12.5mm.
- ◆ Wind load tested: Up to 80mph.
- ◆ Connector clips available for easy joining - sold separately.

Code	Metric	Imperial	Type
IH2433	60cm x 10m	2' X 33'	Rolls
IH3233	80cm x 10m	3' x 33'	
IH3933	100cm x 10m	3' x 33'	
IH24	60cm wide	2' wide	Cut length - per m
IH32	80cm wide	3' wide	
IH39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

Typical applications: Processing and manufacturing industry plus welding, oily and heavy industrial areas, machine workshops.

Ecosorb

- ◆ Anti-fatigue mat designed for combined use with replacement sorbent.
- ◆ Made from top quality nitrile rubber making it suitable for medium duty, wet or oily industrial environments.
- ◆ Captures liquids, oil and grease for a clear and safe surface.
- ◆ Rough gripper surface and raised ramps securely hold sorbent in place.
- ◆ Bubble design and moulded air pockets provide buoyancy for anti-fatigue relief.
- ◆ Replaceable refills available.
- ◆ Material: 100% nitrile rubber.
- ◆ Overall height: 12.7mm.

Black only with grey refill

Code	Metric	Imperial	Type
ES3660	87cm x 157cm	3' x 5'	Mat
ES3660R	80cm x 150cm	3' x 5'	Refill

Typical applications: Manufacturing plants, production lines, assembly lines, in front of CNC machines, metal working, individual workstations and custom work platforms

Dynamat

- ◆ Heavy duty premium rubber mat.
- ◆ Made from dense rubber with textured top surface for added traction.
- ◆ The wide ribbed pattern on reverse allows drainage.
- ◆ Excellent shock absorption qualities, wear resistance, and insulation properties.
- ◆ Material: Natural and recycled rubber.
- ◆ Available in two thicknesses: 10mm and 17mm.

Black only

Code	Metric	Imperial	Thickness
DM10	120cm x 180cm	4' x 6'	10mm
DM17	120cm x 180cm	4' x 6'	17mm

Typical applications: Industrial protective flooring, anti-vibration protection, high-traffic and impact area solutions

Sticky Step Plastic

- ◆ Anti-microbial adhesive sticky plastic sheets.
- ◆ Removes dirt from shoes, wheels, etc. on contact.
- ◆ 30 peel-off layers for maintaining a clean surface at all times.
- ◆ Bottom layer adheres to any clean, dry floor.
- ◆ 4 mats per pack/120 sheets.
- ◆ Sheet thickness, 0.055mm + 5%.
- ◆ Peel adhesion, 433g/25mm (top layer), 1071g/25mm (bottom layer).
- ◆ Material: Polyethylene film coated with acrylic (water solvable) adhesive.
- ◆ Overall height 2mm.

Suitable for indoor use

Code	Metric	Imperial
SP1845	48cm x 110cm	2' x 4'
SP2436	60cm x 90cm	2' x 3'
SP3660	90cm x 150cm	3' x 5'

Typical applications: Maintaining clean room and laboratory standards, operating theatres, intensive care units, data centres and pharmaceutical, electronics, aerospace, instrumentation, nuclear and construction environments

Rubber Rib Mat

- ◆ Low cost rubber surface covering.
- ◆ 100% rubber with fine ribbed surface for sure footing and easy cleaning.
- ◆ Material: 100% rubber.
- ◆ Available in two thicknesses: 3mm and 6mm and three widths: 90cm, 100cm and 120cm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Thickness	Type
RR391	90cm x 10m	3' x 33'	3mm	Rolls
RR3122	120cm x 10m	4' x 33'	3mm	
RR691	90cm x 10m	3' x 33'	6mm	
RR6100	100cm x 10m	3' x 33'	6mm	
RR6122	120cm x 10m	4' x 33'	6mm	
RR391C	90cm wide	3' wide	3mm	
RR3122C	120cm wide	4' wide	3mm	
RR691C	90cm wide	3' wide	6mm	
RR6100C	100cm wide	3' wide	6mm	
RR6122C	120cm wide	4' wide	6mm	

Black only

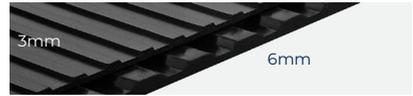

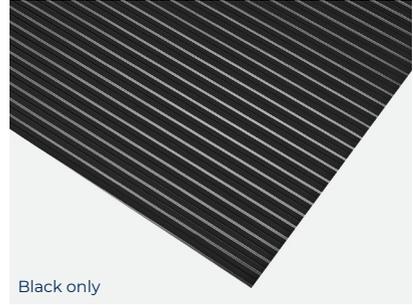

Suitable for indoor and outdoor use

Typical applications: Industrial flooring, aisles, work benches and vehicle interiors, kennels, livery enclosures and animal grooming areas

Wide Rib Rubber

- ◆ Low cost rubber surface covering.
- ◆ The wide ribbed surface provides excellent grip for both floor surfaces and work areas.
- ◆ Material: 100% rubber.
- ◆ Available in two thicknesses: 3mm and 6mm and two widths: 90cm and 120cm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Thickness	Type
WR391	90cm x 10m	3' x 33'	3mm	Rolls
WR3122	120cm x 10m	4' x 33'	3mm	
WR691	90cm x 10m	3' x 33'	6mm	
WR6122	120cm x 10m	4' x 33'	6mm	
WR391C	90cm wide	3' wide	3mm	Cut length - per m
WR3122C	120cm wide	4' wide	3mm	
WR691C	90cm wide	3' wide	6mm	
WR6122C	120cm wide	4' wide	6mm	

Typical applications: Industrial flooring, aisles, work benches and vehicle interiors, kennels, livery enclosures and animal grooming areas.

PennyDot Rubber

- ◆ Low cost surface covering ideal for large floor spaces and work surfaces.
- ◆ Raised circular dots offer excellent slip resistance, and the reverse fabric design prevents mat movement.
- ◆ Material: 100% natural rubber.
- ◆ Available in two thicknesses: 3mm and 4.5mm.
- ◆ Choose from rolls or cut lengths.

Black only

Code	Metric	Imperial	Thickness	Type
PD3122	120cm x 10m	4' x 33'	3mm	Rolls
PD4122	120cm x 10m	4' x 33'	4.5mm	
PD3122C	120cm wide	4' wide	3mm	Cut length - per m
PD4122C	120cm wide	4' wide	4.5mm	

Typical applications: Industrial flooring, aisles, walkways, work benches and vehicle interiors, kennels, livery enclosures and animal grooming areas.

Chequer Plate Mat Single Bar - 3mm

- ◆ Low-cost lightweight surface covering.
- ◆ Recommended for applications where safety and slip protection is needed without anti-fatigue properties.
- ◆ Diamond-embossed chequer plate surface provides exceptional non-directional grip for work benches as well as flooring.
- ◆ Material: 100% rubber.
- ◆ Overall thickness: 3mm.

Black only

Code	Metric	Imperial	Type
CR3122-1	120cm x 10m	4' x 33'	Rolls
CR3122-1C	120cm wide	4' wide	Cut length - per m

Typical applications: Commercial, retail and residential premises, care homes, schools, universities, public buildings, sports facilities, shopping malls and offices

Plate Finish Rubber

- ◆ General purpose grade smooth rubber.
- ◆ Designed to provide exceptional wear resistance.
- ◆ 65 degrees shore A hardness.
- ◆ Tensile strength at break 3.0 Mpa.
- ◆ Material: 100% rubber.
- ◆ Available in two thicknesses: 3mm and 6mm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Thickness	Type
PR3140	140cm x 10m	5' x 33'	3mm	Rolls
PR6140	140cm x 10m	5' x 33'	6mm	
PR3140C	140cm wide	5' wide	3mm	Cut length - per m
PR6140C	140cm wide	5' wide	6mm	

Suitable for indoor use

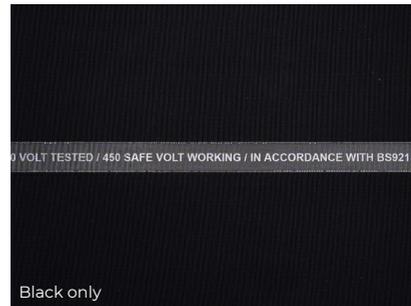

Typical applications: Waterproof seals and gaskets, workbench protective coverings, flooring, vehicle interiors and, drawer and shelf liners

Rubber Rib Mat Electrical 11KV (450V)

- ◆ Low cost non-conductive rubber safety matting.
- ◆ Provides insulation, protecting workers from electric shock.
- ◆ 100% rubber with fine ribbed surface for sure footing and easy cleaning.
- ◆ Tested to 11000 volts with a recommended working voltage of 450 volts.
- ◆ Material: Natural rubber.
- ◆ Overall thickness: 6mm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Type
RE691	90cm x 10m	3' x 33'	Rolls
RE6100	100cm x 10m	3' x 33'	
RE6122	120cm x 10m	4' x 33'	
RE691C	90cm wide	3' wide	Cut length - per m
RE6100C	100cm wide	3' wide	
RE6122C	120cm wide	3' wide	

Suitable for indoor use

Typical applications: Perfect solution for live switchboards, lower voltage switchboard applications, generators, electrical equipment and repair workstations

Rubber Rib Mat Electrical - Class 0 (1KV)

- ◆ A high-performance, non-conductive rubber safety mat.
- ◆ Tested to withstand up to 10,000 volts, with a recommended working voltage of 1,000 volts.
- ◆ Certified to IEC 61111 Class 0, meeting stringent international standards for electrical insulation.
- ◆ Printed on the back with regulatory details for compliance.
- ◆ Fine ribbed surface for great anti-slip protection.
- ◆ Material: Natural rubber.
- ◆ Overall thickness: 3mm.

Code	Metric	Imperial	Type
RE3100-CL0	100cm x 10m	3' x 33'	Roll
RE3100-CL0C	100cm wide	3' wide	Cut length - per m

Typical applications: Perfect solution for live switchboards, lower voltage switchboard applications, generators, electrical equipment and repair workstations

Rubber Rib Mat Electrical - Class 2 (17KV)

- ◆ A premium, non-conductive rubber safety mat.
- ◆ Tested to withstand up to 30,000 volts, with a recommended working voltage of 17,000 volts.
- ◆ Certified to IEC 61111 Class 2, adhering to international safety standards for electrical insulation.
- ◆ Printed on the back with regulatory details for compliance.
- ◆ Fine ribbed surface for great anti-slip protection.
- ◆ Material: Natural rubber.
- ◆ Overall thickness: 4mm.

Code	Metric	Imperial	Type
RE4100-CL2	100cm x 10m	3' x 33'	Roll
RE4100-CL2C	100cm wide	3' wide	Cut length - per m

Typical applications: Perfect solution for live switchboards, lower voltage switchboard applications, generators, electrical equipment and repair workstations

Rubber Rib Mat Electrical - Class 4 (36KV)

- ◆ Our highest-performance, non-conductive rubber safety mat.
- ◆ Tested to withstand up to 50,000 volts, with a recommended working voltage of 36,000 volts.
- ◆ Certified to IEC 61111 Class 4, meeting stringent international standards for electrical insulation.
- ◆ Printed on the back with regulatory details for compliance.
- ◆ Fine ribbed surface for great anti-slip protection.
- ◆ Material: Natural rubber.
- ◆ Overall thickness: 6mm.

Code	Metric	Imperial	Type
RE6100-CL4	100cm x 10m	3' x 33'	Roll
RE6100-CL4C	100cm wide	3' wide	Cut length - per m

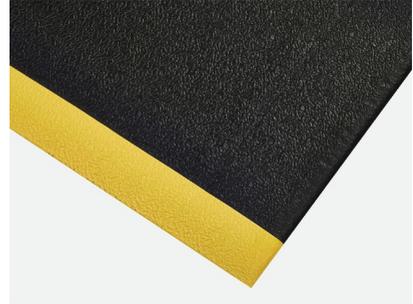

Typical applications: Perfect solution for live switchboards, lower voltage switchboard applications, generators, electrical equipment and repair workstations

Conductive Anti-Static Matting

ESD Kumfi Pebble and ESD Worktop Matting are formulated to dissipate static electricity. Simple worker tasks - working, walking or even sitting on certain types of stools - creates static electric. Left unchecked, static can discharge into static sensitive equipment, potentially causing damage. Conductive/Anti-static matting drains static from workers, preventing unpleasant static shocks and safeguarding equipment.

ESD Kumfi Pebble

- ◆ ESD anti-fatigue vinyl sponge matting.
- ◆ Designed for anti-static protection in medium duty areas.
- ◆ Meets IEC61340-4-1 (category DIF), measured resistance ESD Rg - Rg 10⁶ - 10⁹ and ESD Rp - Rp 10⁶ - 10⁹.
- ◆ Pebble surface provides good anti-slip protection and the bevelled edges on all sides minimise the risk of tripping.
- ◆ Material: Microcellular vinyl.
- ◆ Overall height: 9.4mm.
- ◆ Use in conjunction with ESD accessories.

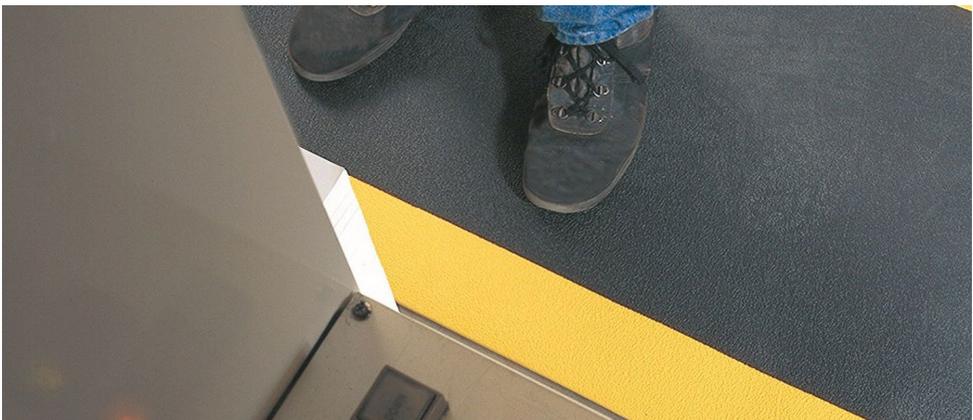

Code	Metric	Imperial	Type
EP2436	60cm x 91cm	2' x 3'	Mats
EP3660	91cm x 150cm	3' x 5'	
EP360	91cm x 18.3m	3' x 60'	Roll
EP36	91cm wide	3' wide	Cut length - per m

Suitable for indoor use

Typical applications: Assembly lines, logistics warehouses, individual workstations, around machinery, computer rooms, hospitals and the aerospace industry

ESD Worktop Matting

- ◆ ESD protective worktop matting designed to dissipate static from conductive items placed on it.
- ◆ Protects components from damaging static shock by bringing ESD protective materials and personnel to the same electrical potential.
- ◆ Made from antistatic (conductive) and static-dissipative materials with synthetic rubber.
- ◆ 2mm thick double-layer structure (Surface is a 0.5mm thick static-dissipative layer and the bottom is a 1.5mm conductive layer).
- ◆ Material: Nitrile rubber.
- ◆ Use in conjunction with ESD accessories.

Suitable for indoor use

Code	Metric	Imperial	Type
EW2448	60cm x 120cm	2' x 4'	Mat
EW4833	120cm x 10m	4' x 33'	Roll
EW48	120cm wide	4' wide	Cut length - per m

Typical applications: Assembly lines, logistics warehouses, workshops and individual workstations, laboratories, automotive, computer and electronics industries, hospitals and even photocopy areas

ESD Accessories

- ◆ Use with our ESD range and anti-static floor mats for safe dissipation of electrostatic charge, protecting workers from static shocks.
- ◆ Common Ground Point Cord - Socket and Coiled Earth Lead - 10mm to 10mm Stud provide a strong connection to ground.
- ◆ Wrist band and heel grounder ensure effective worker connection.
- ◆ Earth Bonding Plug incorporates 3 x 10mm male studs for grounding cord connection and is supplied with a 1 meg-ohm resistor.

Common Grounding point Cord - Socket

Coiled Earth Lead - 10mm to 10mm Stud

Wrist Band

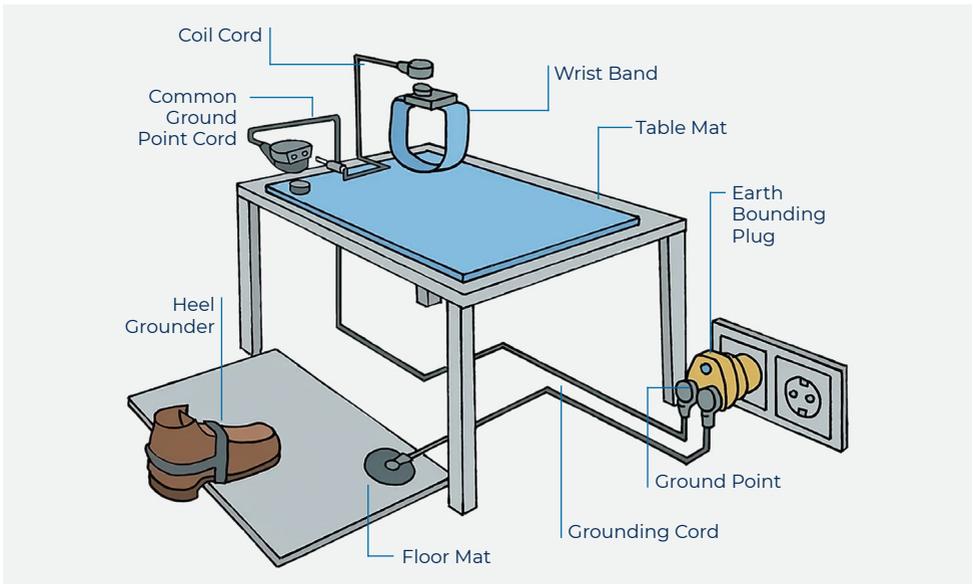

Earth Bonding Plug

Code	Description
EA0522	Common Grounding Point Cord - Socket
EA0531	Coiled Earth Lead - 10mm to 10mm Stud
EA0542	Wrist Band
EA0551	Earth Bonding Plug
EA0561	Heel Grounder

Heel Grounder

Knee Saver

- ◆ Convenient and lightweight (only weighs 350g) portable kneeling pad for on-site maintenance.
- ◆ Reduces knee and back pain caused by regular kneeling.
- ◆ Self-extinguishing, non-conductive, silicone free material.
- ◆ Highly resistant to oils and grease.
- ◆ Built in handle makes it easy to carry or hang.
- ◆ Material: Nitrile and PVC foam blend.
- ◆ Overall height: 25mm.

Black only

Code	Metric	Imperial
KSI222	31cm x 55cm	1' x 2'

Typical applications: All floor-based work, tool and maintenance carts, individual workstations, tool sheds, gardening, or cleaning

Diamond Grip Tape – General Purpose

- ◆ Self-adhesive anti-slip tape for medium to high traffic areas.
- ◆ Waterproof, oil and grease resistant, including most chemicals.
- ◆ Provides excellent grip levels for added safety.
- ◆ Available in rolls or stair tread cleats.
- ◆ Easy application with application temperature range of 10°C - 50°C.
- ◆ Strong adhesion: 5.5kg / 25mm.
- ◆ Material: Aluminium Oxide (80 grit) with solvent acrylic adhesive.
- ◆ Overall height: 0.8mm.

Black

Yellow

Code	Metric	Imperial	Type
DGGP01	25mm x 18.3m	1" x 60'	Rolls
DGGP02	50mm x 18.3m	2" x 60'	
DGGP04	100mm x 18.3m	4" x 60'	
DGGP06	150mm x 18.3m	6" x 60'	
DGGP624	610mm x 150mm	2' x 6"	Cleat

Typical applications: Industrial and construction sites, commercial premises, universities, public buildings, residential, retail, sports facilities and offices

Diamond Grip Tape – Hazard

- ◆ Self-adhesive anti-slip tape for medium to high traffic areas.
- ◆ Hazard design to increase awareness.
- ◆ Waterproof, oil and grease resistant, including most chemicals.
- ◆ Provides excellent grip levels for added safety.
- ◆ Available in rolls or stair tread cleats.
- ◆ Easy application with application temperature range of 10°C - 50°C.
- ◆ Strong adhesion: 5.5kg / 25mm.
- ◆ Material: Aluminium Oxide (80 grit) with solvent acrylic adhesive.
- ◆ Overall height: 0.8mm.

Black/Yellow

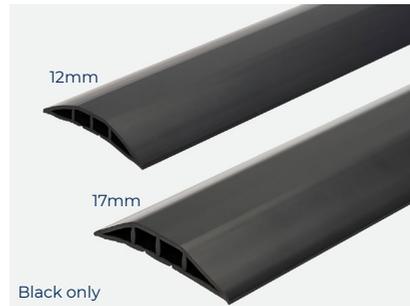

Code	Metric	Imperial	Type
DGHZ01	25mm x 18.3m	1" x 60'	Rolls
DGHZ02	50mm x 18.3m	2" x 60'	
DGHZ04	100mm x 18.3m	4" x 60'	
DGHZ06	150mm x 18.3m	6" x 60'	
DGHZ624	610mm x 150mm	2' x 6"	Cleat

Typical applications: Industrial and construction sites, commercial premises, universities, public buildings, residential, retail, sports facilities and offices

PVC Cable Protector

- ◆ All-purpose cable protector, a simple and cost-effective solution to prevent trip hazards from trailing wires and leads.
- ◆ Two separate internal channels allow easy cable insertion through the base slot, ensuring they lay flat on the floor surface.
- ◆ Quick installation without the need to disconnect wires.
- ◆ Self-adhesive backing adheres to carpets or hard floors.
- ◆ Cable protectors help to comply with safety regulations.
- ◆ Material: Soft PVC.
- ◆ Available in two thicknesses: 12mm and 17mm.
- ◆ Capacity: 12mm - 2 x 8mm cables and, 17mm - 2 x 11mm cables.

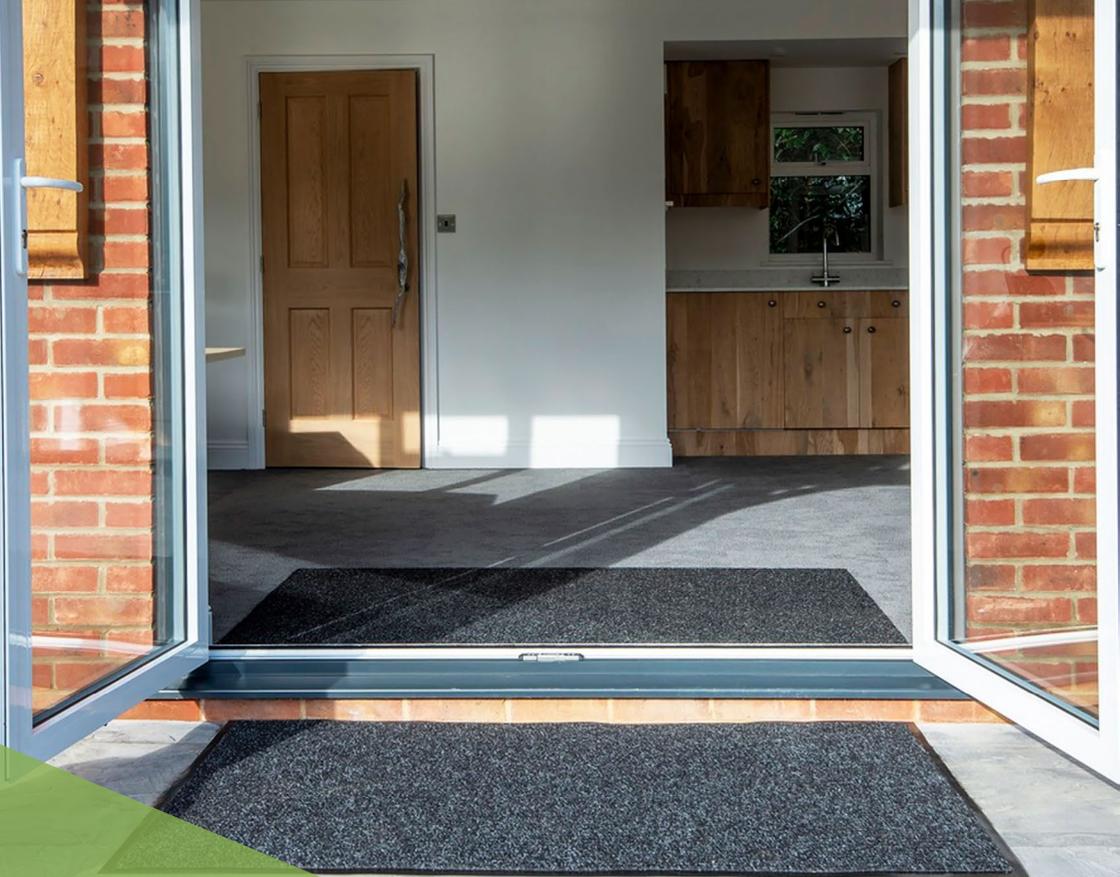

Black only

Code	Metric	Imperial	Thickness
CP375	75mm x 3m	3" x 10'	12mm
CP310	100mm x 3m	4" x 10'	17mm

Typical applications: Offices, storage areas, workshops, warehouses, events, shows and exhibitions

Entrance

First impressions count, providing effective dirt and moisture control for every doorway.

We offer a vast range of indoor and outdoor entrance mats designed with every need and environment in mind. From low to high water absorbency and varying levels of textured surfaces to remove dirt, soil, and snow, to our open-top range that allows fluids and debris to drain through, leaving a dry, clean, and safe surface. We also provide decontamination matting for maintaining cleanroom and laboratory standards.

It is a recognised fact that between 70-80% of interior floor soiling enters buildings via foot traffic, which is why having the right matting in place is essential. We can offer advice on the perfect solution for you, but as a general guidance, each foot should ideally make contact at least four times to sufficiently clean and dry footwear. These can be divided into three zones:

Zone 1: This is where heavy debris is removed. Ideally, 40% of dirt and moisture should be cleared within the first 1.5 metres. It's most effective when the mat is positioned outside the entrance.

Zone 2: Here, fine debris and moisture are scraped and wiped off shoes. Approximately 20% is removed in this zone.

Zone 3: Additional wiping mats in this area complete the drying process, typically within about 5 metres.

All of our products are categorised by zones to help you choose the right mat. We're confident that our mats will give you peace of mind by keeping your employees, customers, family, or friends safe from slips, trips and falls while, at the same time, protecting surfaces from damage.

Plushway

- ◆ Hardwearing all-purpose mat, ideal for moderate to high traffic areas.
- ◆ Plush pile effectively traps and removes soil, dirt, and provides excellent moisture control.
- ◆ Offers floor surface protection and helps prevent slips, trips, and falls.
- ◆ Material: Polypropylene fibres heat bonded to a heavy duty PVC vinyl base.
- ◆ Overall height: 7mm.

Code	Metric	Imperial
PM2436	60cm x 90cm	2' x 3'
PM3648	90cm x 120cm	3' x 4'
PM3660	90cm x 150cm	3' x 5'

PM4872	120cm x 180cm	4' x 6'
PM4896	120cm x 240cm	4' x 8'

Typical applications: Offices, schools, universities, public buildings, hotels, shops, sports facilities, restaurants, offices and on construction sites

Lustre

- ◆ Highly effective, hard-wearing entrance mat.
- ◆ Heavy-duty twisted polyamide fibres offer excellent water absorption and dirt removal.
- ◆ Features an anti-slip gripper backing to prevent mat movement.
- ◆ Machine washable at 40°C.
- ◆ Material: Polyamide fibres with 100% nitrile rubber base.
- ◆ Overall height: 9mm.

Code	Metric	Imperial
LM2436	60cm x 85cm	2' x 3'
LM3648	85cm x 120cm	3' x 4'

LM4872	115cm x 180cm	4' x 6'
LM4896	115cm x 240cm	4' x 8'

Typical applications: Schools, universities, public buildings, sports facilities, shopping malls and offices

Brushway

- ◆ Ideal for indoor medium to heavy traffic areas.
- ◆ The unique double rib incorporates high/low design for effective brushing and wiping action while efficiently removing moisture.
- ◆ Slip resistant base to prevent movement.
- ◆ Material: Polypropylene fibres heat bonded to a heavy duty vinyl base.
- ◆ Overall height: 9mm.

Code	Metric	Imperial
BM2436	60cm x 90cm	2' x 3'
BM3648	90cm x 120cm	3' x 4'
BM3660	90cm x 150cm	3' x 5'
BM4872	120cm x 180cm	4' x 6'

Typical applications: Schools, offices, commercial establishments, retail and industrial entrances

Dayton

- ◆ Economically priced, hard wearing mat, perfect for medium footfall areas.
- ◆ The stain resistant, anti-slip vinyl backing ensures the mat stays in place.
- ◆ Thick dense pile effectively removes dirt and moisture.
- ◆ Available in a range of dirt-hiding mottled colours for an attractive appearance.
- ◆ Material: 100% polypropylene with vinyl backing.
- ◆ Overall height: 7mm.

Code	Metric	Imperial	Type

DT4896	120cm x 240cm	4' x 8'	
DT36*	90cm wide	3' wide	Cut length - per m

Typical applications: Schools, universities, public buildings, residential, retail, sports facilities, offices and on construction sites

*Available in Anthracite only

Aquasorb

- ◆ All-round high performance mat with crush resistant raised waffle design for aggressive scraping and cleaning action.
- ◆ Extremely tough solid rubber perimeter, making it ideal for medium to heavy traffic areas, a perfect choice for schools.
- ◆ The slip resistant backing minimises movement on all surfaces.
- ◆ Material: Decalon fibres bonded to a tough rubber base.
- ◆ Overall height 9mm.

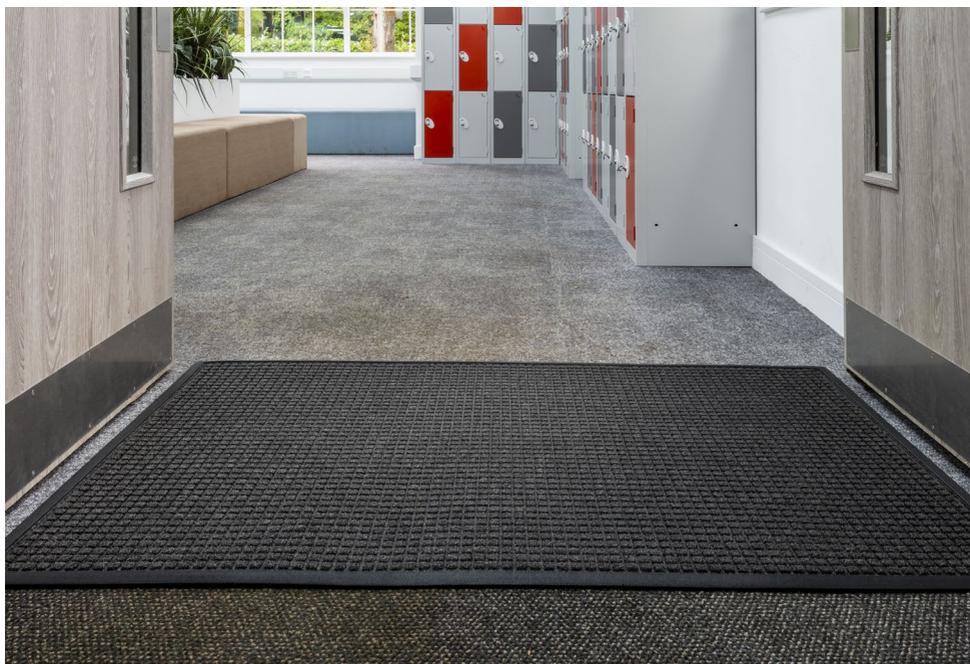

Code	Metric	Imperial

AM4872	120cm x 180cm	4' x 6'

Suitable for indoor use

Typical applications: Schools, universities, public buildings, sports facilities, shopping malls, offices and on construction sites

Richmond

- ◆ Highly absorbent cotton wiper mat, perfect for everyday moisture and dirt control.
- ◆ Available in a range of attractive flecked colours.
- ◆ Machine washable for easy maintenance.
- ◆ Material: Real cotton fibres bonded to a PVC vinyl backing.
- ◆ Pile weight: 500 g/m².
- ◆ Total weight: 2670 g/m².
- ◆ Overall height: 6mm.

Code	Metric	Imperial
RD2436	60cm x 90cm	2' x 3'

Typical applications: Commercial and residential premises including care homes

Lexington

- ◆ Highly absorbent lightweight economy cotton wiper mat.
- ◆ Available in a range of attractive flecked colours.
- ◆ Machine washable for convenient cleaning.
- ◆ Borderless design with radius corners.
- ◆ Material: Real cotton fibres bonded to a latex backing.
- ◆ Overall height: 5mm.

Code	Metric	Imperial	Type

LX3648	90cm x 120cm	3' x 4'	
LX39	100cm wide	3' wide	Cut length - per m

Typical applications: Commercial and residential use including care homes

PVC Backed Coir

- ◆ Time-proven traditional entrance matting material for indoor mat wells and foyers.
- ◆ Exceptional moisture and dirt trapping properties with brush-like action on shoe soles.
- ◆ Easily cut to any size without requiring edge binding.
- ◆ Material: 100% natural coir with PVC backing for added stability.
- ◆ Overall height: 17mm.

Code	Metric	Imperial	Type
CO3941	100cm x 12.5m	3' x 41'	Roll
CO1701	100cm wide	3' wide	Cut length - per m

Typical applications: Schools, offices, commercial establishments, retail, residential, industrial entrances and construction site cabins

Logo Mat

- ◆ Logo Mats provide excellent marketing and brand awareness.
- ◆ The heavy-duty twisted surface, offers fantastic water absorption and dirt removal.
- ◆ Each mat is custom made to your individual requirements.
- ◆ Features an anti-slip gripper to prevent mat movement on smooth surfaces.
- ◆ Bespoke sizes are available.
- ◆ Machine washable for convenient cleaning.
- ◆ Material: 100% post-consumer recycled PET (plastic bottles) surface, with 100% nitrile backing containing 34% post-industrial recycled rubber.
- ◆ A typical 85cm x 150cm mat, the yarn will be made of approx. 81½ plastic bottles.
- ◆ Overall height: 9mm.

Code	Metric	Imperial

LO7910	200cm x 300cm	7' x 10'

Typical applications: Schools, universities, public buildings, sports facilities, shopping malls, offices, hotels and bars and restaurants

How to order:

- ◆ Choose your mat size.
- ◆ Email sales@bluediamond.uk.com with a high-resolution image of your design and brand guidelines in PDF, JPEG, or similar format.
- ◆ Upon order confirmation, you'll receive a full-colour proof for approval.
- ◆ Your design will be closely matched from our range of over 100 colours.

Octaguard

- ◆ Versatile heavyweight rubber mat for demanding entrance areas and outdoor use.
- ◆ Straight edges enable mats to be joined in both directions with connectors, to cover large areas.
- ◆ Octagonal drainage holes and raised edging allow fluid and debris to pass through, keeping the surface clear.
- ◆ Designed to withstand heavy and regular usage over a long period.
- ◆ Cellular slip-resistant surface ensures safety.
- ◆ Optional insert brushes enhance scraping action and allow for logos, messages, or brand colours on the mat.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 22mm (excluding brushes).
- ◆ Connectors and brushes sold separately.

Black only

Brushes in black, blue and grey (additional colours available on request)

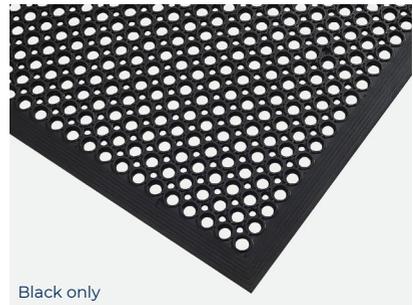

Code	Metric	Imperial	Type
OG3959	100cm x 150cm	3' x 5'	Mat
OCC	7cm x 7cm	3" x 3"	Connector
OGB	3cm x 2cm	1" x 1"	Insert brush

Typical applications: Perfect for every entrance

Sentry

- ◆ Multi-purpose, hardwearing anti-slip mat for challenging entrances.
- ◆ Honeycombed surface provides exceptional scraping action, allowing dirt and debris to fall through.
- ◆ Bevelled edges on all sides prevent trips, while raised studs on the underside keep the mat in place.
- ◆ Available in various sizes to suit every entrance.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

Black only

Code	Metric	Imperial	Type
SE2436	60cm x 90cm	2' x 3'	Mats
SE3248	80cm x 120cm	3' x 4'	
SE3660	91cm x 150cm	3' x 5'	
SE310	91cm x 3m	3' x 10'	Rolls
SE320	91cm x 6m	3' x 20'	

Typical applications: Residential, schools, universities, public buildings, sports facilities, shopping malls and offices

Forklift Mat

- ◆ Intricate weaved surface design to achieve maximum water absorbency and effective dirt removal brought in to warehouses by forklift trucks.
- ◆ Reduces the risk of forklifts skidding or losing control on wet or dirty surfaces.
- ◆ Enhances safety by removing the risk of slips caused by wet surfaces.
- ◆ Mats can be installed individually or laid next to each other to cover large areas.
- ◆ Simple and easy to install using our double-sided adhesive tape - tape sold separately. 1 roll = 4 mats.
- ◆ The longevity of the mat depends on how they are treated. We recommend that forklift operatives refrain from turning on the mats or placing/pushing pallets across them, as such actions can cause damage resulting in early replacement.
- ◆ Easy to clean.
- ◆ Material: Polypropylene surface with rubber backing.
- ◆ Overall height: 8mm.

Code	Metric	Imperial
FM3672	90cm x 180cm	35" x 71"

Charcoal only

Suitable for indoor use

Typical applications: Ideal for any environment where forklifts are operated, contributing to cleanliness, safety, and the protection of floor surfaces

Double-Sided Adhesive Tape

- ◆ Offers superior bonding for heavy-duty, high-traffic environments.
- ◆ Recommended for use with our Forklift Mat.
- ◆ Will bond to nearly any material.
- ◆ Pre-application, make sure the surface is smooth, clean and dry.
- ◆ Designed for durability and longevity of use.
- ◆ Material: A double-sided open weave PET cloth tape coated with a white synthetic rubber resin (solvent free) adhesive.
- ◆ Overall thickness: 180 microns.
- ◆ Available in 50m rolls. We recommend one roll of tape to secure four mats.

Code	Metric	Imperial	Type	Colour
DST02	50mm x 50m	2" x 164'	Roll	White

Suitable for indoor use

Typical applications: Ideal for securing all mats. Recommended for the installation of our Forklift Mat

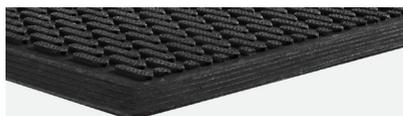

Soilscrapper

- ◆ High traction mat for removing dirt and grit in demanding conditions.
- ◆ Manufactured from hardwearing rubber to withstand the highest volume of traffic.
- ◆ Anti-slip underside grip pattern ensures adherence to most surfaces and prevents movement.
- ◆ Low profile edge detail.
- ◆ Material: Natural and recycled rubber.
- ◆ Weight: 7.5 kg per m².
- ◆ Overall height: 7mm.

Black only

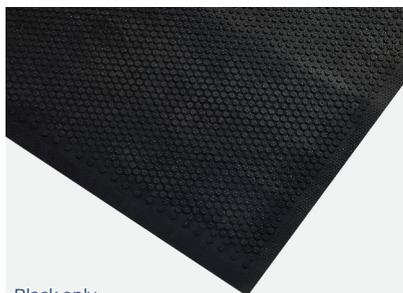

Typical applications: Commercial, Industrial and engineering entrances as well kitchens and restaurants

Code	Metric	Imperial
SO3660	90cm x 150cm	3' x 5'

Safety Scrape

- ◆ Exceptional anti-slip mat with moulded scrapers to remove heavy dirt and swarf from shoes and boots.
- ◆ Resistant to oil, grease and chemicals.
- ◆ Rubber gripper backing ensures the mat remains firm underfoot even in wet or oily areas.
- ◆ Easy to clean, simply shake or hose off.
- ◆ Material: 100% nitrile rubber.
- ◆ Ultra-low profile of 5mm.

Black only

Typical applications: Workshop entrances, engineering workshops, kitchens, production areas, welding areas as well as external entrances

Code	Metric	Imperial
SS2436	60cm x 90cm	2' x 3'
SS3660	85cm x 150cm	3' x 5'
SS310	85cm x 300cm	3' x 10'
SS4872	113cm x 180cm	4' x 6'
SS410	113cm x 300cm	4' x 10'

Fingerbrush

- ◆ Designed for external use, withstands extreme weather and heavy foot traffic.
- ◆ Hundreds of flexible rubber bristles remove dirt and clean shoes quickly.
- ◆ Anti-trip bevelled rubber border reduces the risk of trips.
- ◆ Anti-slip underside detail prevents mat movement.
- ◆ Material: 100% natural rubber.
- ◆ Overall height: 14mm.

Black only

Code	Metric	Imperial
FB2432	60cm x 80cm	2' x 3'
FB3239	80cm x 100cm	3' x 3'

Typical applications: Schools, offices, commercial establishments, retail, residential, industrial and on construction sites

Sticky Step Plastic

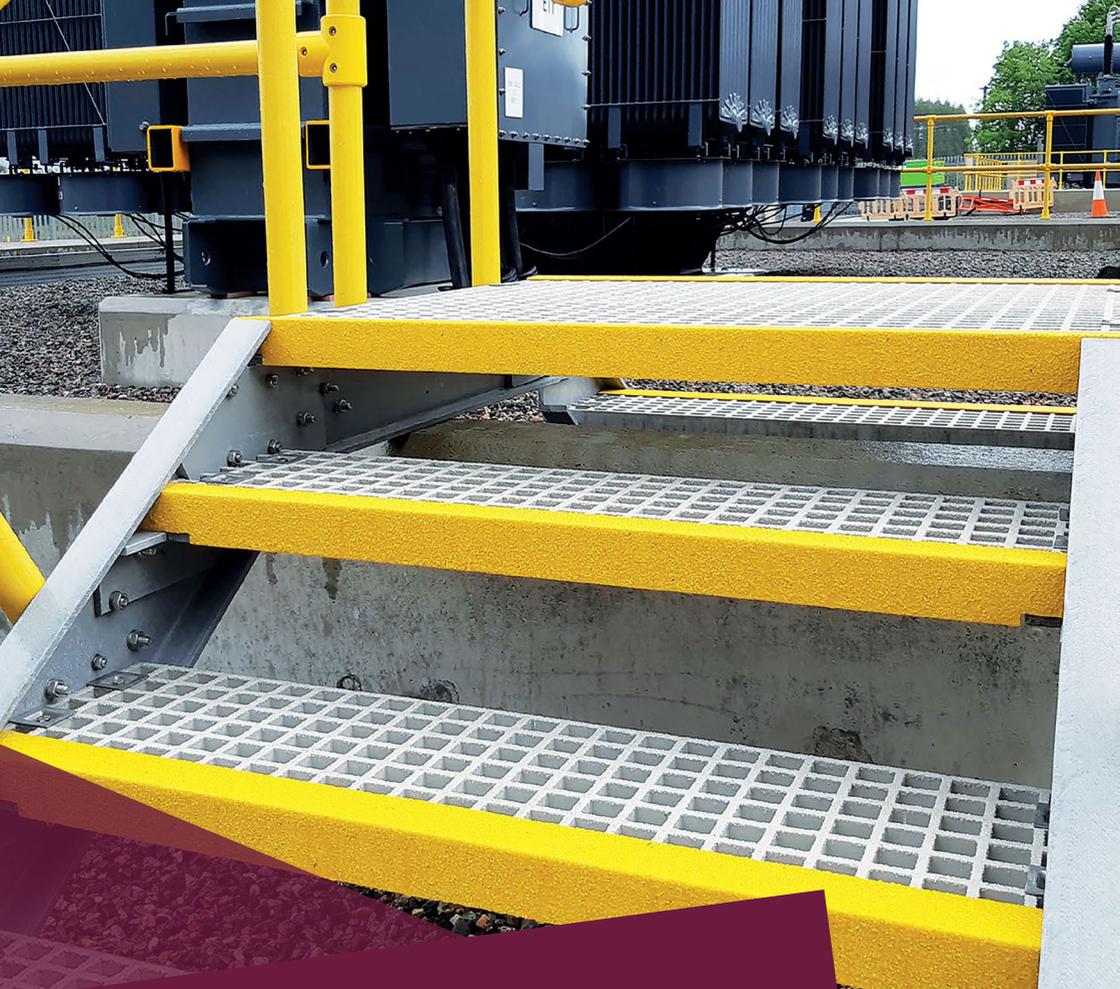

- ◆ Anti-microbial adhesive sticky plastic sheets.
- ◆ Removes dirt from shoes, wheels, etc. on contact.
- ◆ 30 peel-off layers for maintaining a clean surface at all times.
- ◆ Bottom layer adheres to any clean, dry floor.
- ◆ 4 mats per pack/120 sheets.
- ◆ Sheet thickness, 0.055mm + 5%.
- ◆ Peel adhesion, 433g/25mm (top layer), 1071g/25mm (bottom layer).
- ◆ Material: Polyethylene film coated with acrylic (water solvable) adhesive.
- ◆ Overall height 2mm.

Code	Metric	Imperial
SP1845	48cm x 110cm	2' x 4'
SP2436	60cm x 90cm	2' x 3'
SP3660	90cm x 150cm	3' x 5'

Typical applications: Maintaining clean room and laboratory standards, operating theatres, intensive care units, data centres and pharmaceutical, electronics, aerospace, instrumentation, nuclear and construction

GRP and Access Solutions

Remove the risk of slips, trips, and falls.

Slips, trips, and falls account for more than a third of all major injuries, with statistics revealing that a significant portion of these incidents involves slips. At Blue Diamond, we're here to support you in choosing the right protective flooring for your application, guaranteeing the safety of your visitors and employees, regardless of the weather or environment.

Our comprehensive range of safety solutions for slip-resistant surfaces includes Anti-Slip GRP Stair Treads, Anti-Slip GRP Stair Nosing, Anti-Slip GRP Decking Strips, and GRP Flat Sheets, all designed to enhance safety and reduce the risk of accidents. We also offer a range of GRP Open Top Grating, Profiles, and innovative Access Solutions.

All of our anti-slip GRP products are designed to ensure longevity and maximum protection. GRP is also a cost-effective alternative to traditional floor grating materials like mild steel, stainless steel, aluminium, or wood.

Anti-Slip GRP Stair Nosing

- ◆ Extremely high anti-slip rating.
- ◆ Moulded fibreglass stair nosing offer a cost-effective way to increase stairway safety.
- ◆ Can be applied to existing concrete, metal, or wood steps.
- ◆ Robust fibreglass GRP construction withstands harsh conditions and the heavy-duty grit surface protects against delamination, unlike metal-backed alternatives.
- ◆ Impregnated fire-retardant additives ensure excellent fire and heat resistance (ASTM E84 compliant).
- ◆ Lightweight and easy to handle.
- ◆ Simple installation.
- ◆ Hardwearing and long-lasting.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Profile Size	Length
SN0216	55mm x 55mm	400mm
SN0220	55mm x 55mm	500mm

SN0210	55mm x 55mm	3m
SN0212	55mm x 55mm	3.6m
SN0330*	30mm x 70mm	750mm
SN0339*	30mm x 70mm	1m
SN0359*	30mm x 70mm	1.5m
SN0379*	30mm x 70mm	2m
SN0310*	30mm x 70mm </td <td>3m</td>	3m

*Not available in Black/Yellow

Typical applications: Schools, residential, leisure, construction, commercial and industrial environments

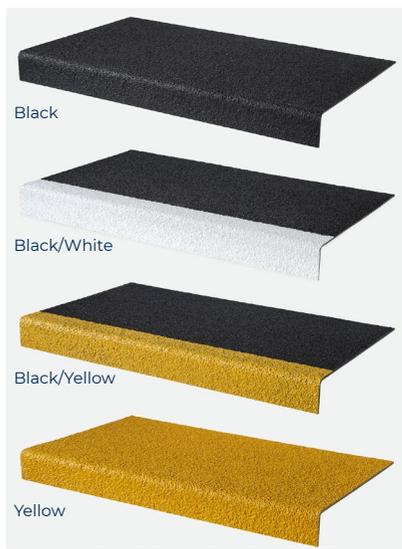

Anti-Slip GRP Stair Tread

- ◆ Extremely high anti-slip rating.
- ◆ Moulded fibreglass stair tread covers offer a cost-effective way to increase stairway safety.
- ◆ Suitable for concrete, metal, or wood steps.
- ◆ Robust fibreglass GRP construction withstands harsh conditions and the heavy-duty grit surface protects against delamination, unlike metal-backed alternatives.
- ◆ Impregnated fire-retardant additives ensure excellent fire and heat resistance (ASTM E84 compliant).
- ◆ Lightweight and easy to handle.
- ◆ Simple installation.
- ◆ Hardwearing and long-lasting.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Profile Size	Length
STI424	55mm x 345mm	600mm
STI430	55mm x 345mm	750mm
STI439	55mm x 345mm	1m
STI448	55mm x 345mm	1.2m
STI460	55mm x 345mm	1.5m
STI479	55mm x 345mm	2m
STI410	55mm x 345mm	3m
STI412*	55mm x 345mm	3.6m

* Only available in Black/White and Black/Yellow

Typical applications: Schools, residential, leisure, construction, commercial and industrial environments

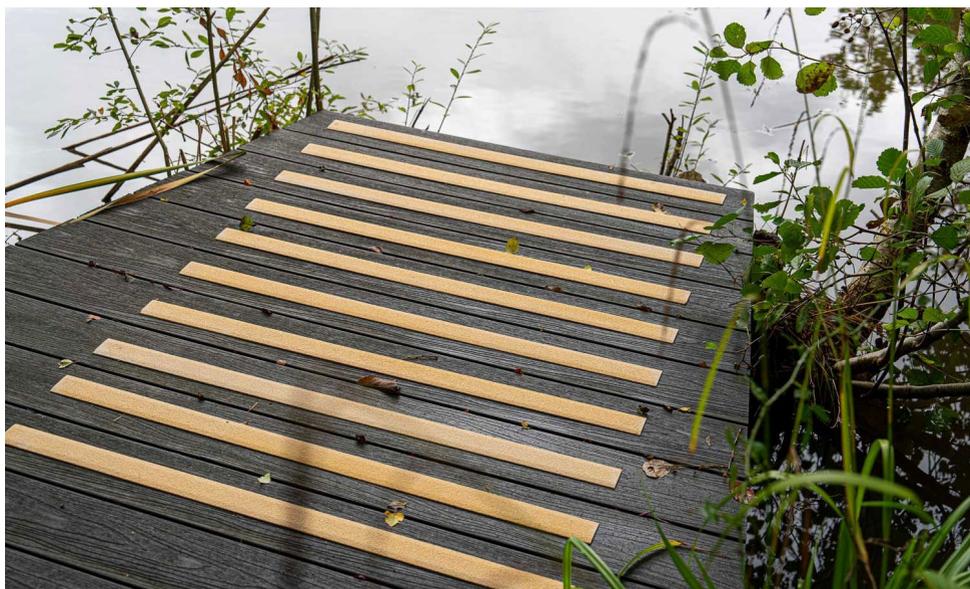

Anti-Slip GRP Decking Strips

- ◆ Extremely high anti-slip rating.
- ◆ Direct fixing to various floor surfaces for immediate safety improvement.
- ◆ Corrosion and water, oil, and chemical resistant.
- ◆ Simple installation process.
- ◆ Can be supplied pre-drilled.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in two profile sizes: 50mm and 90mm.
- ◆ Overall thickness: 3mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Size
DS0230	50mm x 750mm
DS0239	50mm x 1m
DS0259	50mm x 1.5m
DS0279	50mm x 2m
DS0210	50mm x 3m
DS0439	90mm x 1m
DS0459	90mm x 1.5m
DS0479	90mm x 2m
DS0410	90mm x 3m

Typical applications: Industrial or construction sites, plus in schools, residential areas, commercial premises and sport and leisure facilities

Anti-Slip GRP Flat Sheet

- ◆ Immediate solution for providing highly effective anti-slip flooring to minimise the risk of slips, trips and falls.
- ◆ Designed to be fitted directly onto concrete, metal, wood and much more.
- ◆ The simple design allows for quick and easy installation.
- ◆ Corrosion, water, oil, and chemical resistant.
- ◆ Perfect for marking out walkways and providing clear access routes with inherent strong anti-slip properties.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Size	Colour Options
FS3248	800mm x 1220mm	Black, Grey, Yellow
FS3910	1000mm x 3000mm	Black
FS4848	1220mm x 1220mm	Black, Grey, Yellow
FS4859	1220mm x 1500mm	Black, Yellow
FS4896	1220mm x 2440mm	Black, Grey, Yellow
FS4810	1220mm x 3000mm	Black, Yellow

Typical applications: An affordable solution for platforms, walkways, bridges, flooring, ramps and stair covers and can be used on industrial or construction sites, in schools, residential areas, commercial premises and sport and leisure facilities

GRP Grating

- ◆ Moulded non-slip composite floor solution.
- ◆ Constructed from the highest quality fiberglass making it lightweight and chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Cost-effective alternative to traditional materials like mild steel, stainless steel, aluminium, or wood.
- ◆ Limited tooling and installation costs.
- ◆ Standard and bespoke sizes available with in-house cutting service.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in 25mm, 38mm and 50mm thickness.
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.
- ◆ Please note, cutting tolerance +/- 5mm.

Code	Size	Thickness
GR3939-25	996mm x 996mm	25mm
GR3960-25	1492mm x 996mm	25mm
GR3979-25	1985mm x 996mm	25mm
GR3910-25	3010mm x 996mm	25mm
GR4812-25	3660mm x 1220mm	25mm
GR3939-38	996mm x 996mm	38mm
GR3960-38	1492mm x 996mm	38mm
GR3979-38	1985mm x 996mm	38mm
GR3910-38	3010mm x 996mm	38mm
GR4812-38	3660mm x 1220mm	38mm
GR4812-50	3665mm x 1225mm	50mm

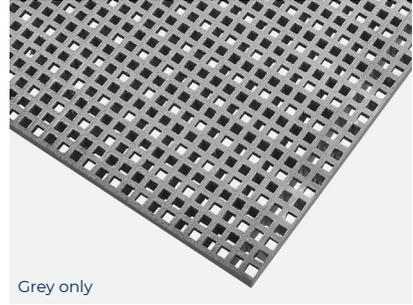

Typical applications: Platforms, walkways, flooring, ramps and covers for industrial or construction sites, chemical and shipping industries as well as offshore oil rigs

GRP Mini Mesh

- ◆ Moulded non-slip composite floor solution.
- ◆ Constructed from the highest quality fiberglass making it lightweight, chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Cost-effective alternative to traditional materials like mild steel, stainless steel, aluminium, or wood.
- ◆ Limited tooling and installation costs.
- ◆ Standard and bespoke sizes available with in-house cutting service.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness 30mm.
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.
- ◆ Please note, cutting tolerance +/- 5mm.

Grey only

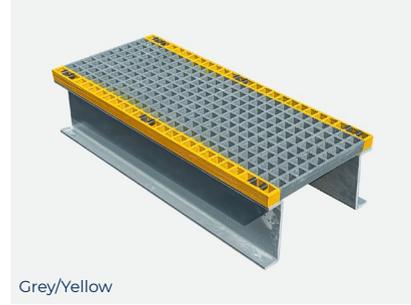

Code	Size	Thickness
GR4913-30	4038mm x 1262mm	30mm

Typical applications: Platforms, walkways, pontoons, flooring, ramps and covers for industrial or construction sites, chemical and shipping industries as well as offshore oil rigs

GRP Step Over Platform

- ◆ Offers immediate safety and protection against trip hazards, with yellow edging enhancing safety further to alert users to potential hazards.
- ◆ Made from high-quality GRP (Glass Reinforced Plastic) Grating and GRP Angle Profile for long-lasting performance.
- ◆ Resistant to all environmental conditions and harsh chemicals, ensuring longevity and reliability.
- ◆ Lightweight, making it easy to handle and install whilst maintaining strength and stability.
- ◆ Suitable for both indoor and outdoor use; can be used as a standalone platform or integrated into a larger access system.
- ◆ Designed with a textured surface to provide excellent traction and prevent slips, even in wet or oily conditions.
- ◆ Free-standing and does not require permanent installation or anchoring, making it easy to reposition as needed.
- ◆ Material: GRP (Glass reinforced polyester) The grating has a resin coated gritted surface.
- ◆ Available in various lengths, widths, and clearance heights, with options for bespoke sizes.
- ◆ Please note, cutting tolerance +/- 5mm.

Grey/Yellow

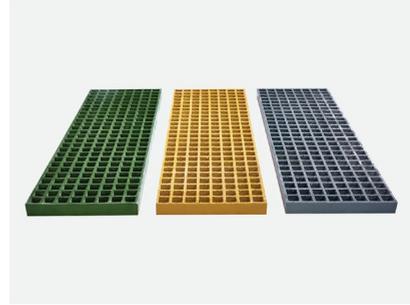

Typical applications: Perfect for safely navigating over obstacles such as pipes, cables, and equipment in industrial facilities, rooftops, utility plants, and construction sites

Code	Size
G-SP1839-138	464 x 996 x 138mm (100mm clearance)

G-SP4848-238	1220 x 1220 x 238mm (200mm clearance)

GRP Waffle Boards

- ◆ GRP Waffle Boards deliver unparalleled traction even in the harshest of conditions, especially in snow and icy weather.
- ◆ Constructed from the highest quality fibreglass making them lightweight, chemical, rust, and corrosion resistant ensuring longevity and durability.
- ◆ Perfect solution for any off-road scenario as they can efficiently bear a vehicle's weight.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in 25mm and 38mm thickness and sold in pairs.
- ◆ Please note, cutting tolerance +/- 5mm.

Code	Size	Thickness
GRI239-25	996mm x 310mm	25mm
GRI239-38	996mm x 310mm	38mm

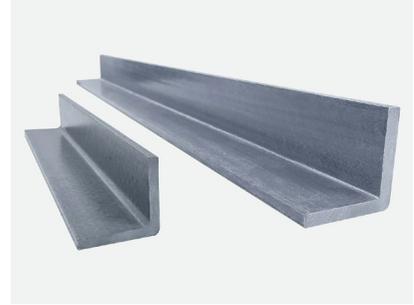

Typical applications: Essential for off-road recovery including recreational off-roading to emergency and military operations

GRP Angle Profile

- ◆ GRP Angle designed to be used with our vast range of GRP grating.
- ◆ Provides best-practice fixing methods for fastening grating panels or creating frames and truss structures.
- ◆ Can be easily cut to any length using our in-house cutting service.
- ◆ Constructed from glass reinforced fibreglass making it lightweight, chemical, rust, and corrosion resistant whilst also offering longevity and durability.
- ◆ Available in Grey (RAL 7000).
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.

Code	Metric	Thickness
G-AP51-3	50.8mm x 50.8mm x 3m	6.35mm
G-AP51	50.8mm x 50.8mm x 6m	6.35mm
G-AP76-3	76.2mm x 76.2mm x 3m	9.5mm
G-AP76	76.2mm x 76.2mm x 6m	9.5mm

Typical applications: Perfect fixing solution for grating panels or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

GRP U Profile

- ◆ GRP U Profile is designed to be used with our vast range of GRP grating.
- ◆ Provides best-practice support for large openings or voids, primarily used in the load-bearing parts of structures.
- ◆ Can be easily cut to any length using our in-house cutting service.
- ◆ Constructed from the highest quality fiberglass making it lightweight, chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Certified to EN 13706.
- ◆ Available in Grey (RAL 7000).
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.

Code	Metric	Thickness
G-UP100-3	101.6mm x 50.8mm x 3m	6.35mm
G-UP100	101.6mm x 50.8mm x 6m	6.35mm
G-UP150-3	152.4mm x 42.8mm x 3m	9.5mm
G-UP150	152.4mm x 42.8mm x 6m	9.5mm
G-UP200-3	203.2mm x 55.6mm x 3m	9.5mm
G-UP200	203.2mm x 55.6mm x 6m	9.5mm

Typical applications: Perfect support solution for grating panels, or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

GRP Grating Accessories

- ◆ GRP Grating Clips and Clamps complement our range of GRP Grating and provide best-practice fixing methods for fastening and joining grating panels.
- ◆ We supply M Clips and C Clips to fit 25mm, 38mm and 50mm Grating, M Clip for Mini Mesh, universal J Clamp and our Square Fixing Clip and Fixing Disc for 25mm, 38mm and Mini Mesh Grating.
- ◆ Material: Stainless steel.

Code	Description
CC-25SS	Stainless Steel C Clip for 25mm Grating c/w fixing bolt
CC-38SS	Stainless Steel C Clip for 38mm Grating c/w fixing bolt
CC-50SS	Stainless Steel C Clip for 50mm Grating c/w fixing bolt
MC-25SS	Stainless Steel M Clip for 25mm Grating
MC-38SS	Stainless Steel M Clip for 38mm Grating
MC-50SS	Stainless Steel M Clip for 50mm Grating
MC-19SS	Stainless Steel M Clip for Mini Mesh Grating
JC-38SS	Stainless Steel J Clamp
FC45SS	Stainless Steel Square Fixing Clip
FD45SS	Stainless Steel Fixing Disc 45mm
M8-35SS	Stainless Steel M8 x 35mm Bolt/Nut/Washer Set

Rawl ETA Throughbolt Anchor

- ◆ Designed for use with our range of Angle and U Profiles.
- ◆ Use for medium to heavy loads.
- ◆ Easy installation.
- ◆ For use in cracked and uncracked concrete, seismic loads C1 and C2, and static or quasi-static loads.
- ◆ Approved for fire resistance R30 to R120.
- ◆ Material:
 - ◆ Shaft: Carbon steel, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Washer: DIN 125 or DIN 9021, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Nut: DIN 934, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Clip: Carbon steel, sherardized $\geq 40 \mu\text{m}$.

Code	Size	Per
B011-543ZF	90mm x 10mm diameter	Rawl Anchors (pack of 100)

Typical applications: Perfect fixing solution for grating panels, or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

GRP Fixing Screws

- ◆ Screw fixings designed for use with our GRP products, providing best-practice fixing methods to most substrates.
- ◆ Material: The fixings come in steel, bright zinc plate and powder coated lacquer where coloured.
- ◆ Perfect for use with our Anti-Slip GRP Flat Sheets, Anti-Slip GRP Decking Strips, Anti-Slip GRP Stair Nosings, and our Anti-Slip GRP Stair Treads.

Code	Description	Colour Options
SCR1000 (200)	R2 CSK Cutter Screw 4.0 x 25	Gold, Bright Zink Plate
SCR1001 (200)	R2 CSK Cutter Screw 4.0 x 40	Gold, Bright Zink Plate
SCR1002 (200)	R2 CSK Cutter Screw 5.0 x 40	Gold, Bright Zink Plate
SCR1003 (Each)	R2 CSK Cutter Screw 4.0 x 40	Lacquered Black, Lacquered Yellow

GRP Adhesive and Sealant

- ◆ Adhesive designed for use with our GRP products and can be used to bond GRP to most substrates including metal, wood, concrete and brick.
- ◆ Material: Solvent free sealant and adhesive combining the best qualities of silicone and polyurethane technologies.
- ◆ Perfect for use with our Anti-Slip GRP Flat Sheets, Anti-Slip GRP Decking Strips, Anti-Slip GRP Stair Nosings, and our Anti-Slip GRP Stair Treads.

Code	Description	Colour
GRPA1000	Sealant and Adhesive 290ml	Clear

Construction

Matting and GRP to withstand any environment, no matter how demanding.

Our construction range is the result of your feedback, designed to provide solutions for every environment, spanning from light-duty to heavy-duty performance. Within our extensive selection, you'll find walkway and ground cover solutions, including anti-fatigue, rubber, and vinyl matting, protective flooring, self-draining options, and moisture, dirt, and swarf control solutions, along with our anti-slip GRP safety and access products. Importantly, our GRP Open Top Grating serves as a cost-effective alternative to traditional floor grating materials like mild steel, stainless steel, aluminium, or wood.

We offer a range of standard lengths and widths for all our products, and our in-house cutting service allows us to provide bespoke sizes for the perfect fit.

GroundTrak

- ◆ Robust and reliable temporary ground protection.
- ◆ Raised square surface pattern provides fantastic traction and dirt removal.
- ◆ Compact design allows for easy portability, set up, and relocation.
- ◆ Avoids health & safety issues caused by poor ground conditions.
- ◆ Helps to reduce noise.
- ◆ Supports up to 20 tonnes.
- ◆ Material: 100% recycled PVC.
- ◆ Overall height: 22mm.

Black only

Typical applications: Perfect for construction sites, outdoor markets and trade shows, temporary parking solutions, outdoor recreation and sports events, emergency access routes, outdoor weddings and special events, camping and outdoor stages

Code	Metric	Imperial
GP3248	800mm x 1200mm	31" x 47"

Cellmax

- ◆ Economical rubber duckboard matting for worker comfort and safety.
- ◆ Cellular slip-resistant surface.
- ◆ Straight edges for easy joining with connectors, to cover large areas and around machinery.
- ◆ Octagonal drainage holes and raised edging ensure a clear surface by allowing fluid and debris to fall through.
- ◆ Designed for heavy and regular usage over a long period.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 22mm.
- ◆ Wind load tested: Up to 60mph.

Black only

Connector

Suitable for indoor and outdoor use

Code	Metric	Imperial	Type
CM3959	100cm x 150cm	3' x 5'	Mat
CMC	7cm x 7cm	3" x 3"	Connector

Typical applications: Industrial, construction and manufacturing environments, ideal for wet areas and can be used for roof walkway matting

Greenskeeper

- ◆ Natural rubber matting, the perfect solution for safety walkways where a hard wearing anti-slip ground protection is required.
- ◆ Provides safety and traction on steep paths.
- ◆ Simple and economical installation.
- ◆ Certified to EN 1177:2018 for Critical Fall Height - 23mm mat only. Full test report available on request.
- ◆ Material: Natural and recycled rubber.
- ◆ Available in two thicknesses: 16mm and 23mm, with the 23mm option also available in a convenient 10.5 mtr roll.

Code	Metric	Imperial	Thickness	Type
GKS1015	100cm x 150cm	3' x 5'	16mm	Mat
GK1015	100cm x 150cm	3' x 5'	23mm	Mat
GK3934	100cm x 10.5m	3' x 34'	23mm	Roll
GKC	6.5cm x 6.5cm	3" x 3"	22mm	Connector
GKP	14cm long x 30mm dia head	6" long x 1" dia head		Peg (pack of 100)
GKT	200mm x 4.8mm	9" x 0.2"		Cable ties (pack of 100)

Black only

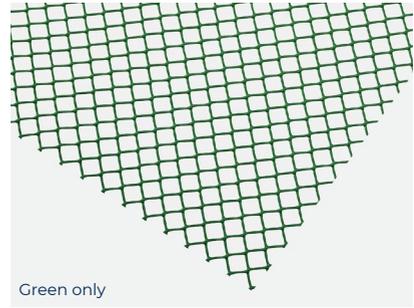

Typical applications: Site walkways and all outdoor spaces where anti-slip ground protection is needed

Greenskeeper Mesh

- ◆ Lightweight grass reinforcement matting made from extruded plastic and used as an underlay for Greenskeeper.
- ◆ Designed to protect and strengthen grass and turf.
- ◆ Easy to install, just unroll the mesh and secure with fixing pins
- ◆ Material: High density polyethylene.
- ◆ Overall height - 4mm.
- ◆ Available in 2m wide by 30m rolls

Green only

Suitable for outdoor use

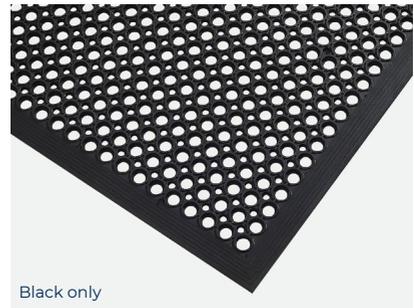

Code	Metric	Imperial	Type
GKM7998	200cm x 30m	7' x 98'	Roll

Typical applications: For use as an underlay to Greenskeeper

Workzone

- ◆ Multi-purpose hardwearing mat, provides excellent anti-fatigue benefits.
- ◆ Anti-slip surface and bevelled edges on all four sides ensure worker comfort and safety.
- ◆ Honeycomb design traps swarf and disperses liquids quickly, leaving the surface clear.
- ◆ Available in a range of sizes to suit any environment.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

Black only

Suitable for indoor and outdoor use

Code	Metric	Imperial	Type
WZ2436	60cm x 90cm	2' x 3'	Mats
WZ3248	80cm x 120cm	3' x 4'	
WZ3660	91cm x 150cm	3' x 5'	
WZ310	91cm x 3m	3' x 10'	Rolls
WZ320	91cm x 6m	3' x 20'	

Typical applications: Industrial, construction and manufacturing environments, production and assembly lines, workshops, distribution centres and individual workstations and custom work platforms

Rubber Rib Mat

- ◆ Low cost rubber surface covering.
- ◆ 100% rubber with fine ribbed surface for sure footing and easy cleaning.
- ◆ Material: 100% rubber.
- ◆ Available in two thicknesses: 3mm and 6mm and three widths: 90cm, 100cm and 120cm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Thickness	Type
RR391	90cm x 10m	3' x 33'	3mm	Rolls
RR3122	120cm x 10m	4' x 33'	3mm	
RR691	90cm x 10m	3' x 33'	6mm	
RR6100	100cm x 10m	3' x 33'	6mm	
RR6122	120cm x 10m	4' x 33'	6mm	
RR391C	90cm wide	3' wide	3mm	
RR3122C	120cm wide	4' wide	3mm	
RR691C	90cm wide	3' wide	6mm	
RR6100C	100cm wide	3' wide	6mm	
RR6122C	120cm wide	4' wide	6mm	

Black only

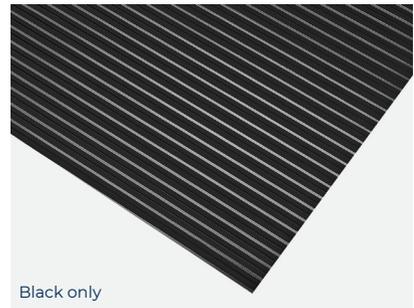

Typical applications: Industrial flooring, aisles, work benches and vehicle interiors, kennels, livery enclosures and animal grooming areas

Wide Rib Rubber

- ◆ Low cost rubber surface covering.
- ◆ The wide ribbed surface provides excellent grip for both floor surfaces and work areas.
- ◆ Material: 100% rubber.
- ◆ Available in two thicknesses: 3mm and 6mm and two widths: 90cm and 120cm.
- ◆ Choose from rolls or cut lengths.

Code	Metric	Imperial	Thickness	Type	
WR391	90cm x 10m	3' x 33'	3mm	Rolls	
WR3122	120cm x 10m	4' x 33'	3mm		
WR691	90cm x 10m	3' x 33'	6mm		
WR6122	120cm x 10m	4' x 33'	6mm		
WR391C	90cm wide	3' wide	3mm		Cut length - per m
WR3122C	120cm wide	4' wide	3mm		
WR691C	90cm wide	3' wide	6mm		
WR6122C	120cm wide	4' wide	6mm		

Black only

Typical applications: Industrial flooring, aisles, work benches and vehicle interiors, kennels, livery enclosures and animal grooming areas.

Utility

- ◆ Hard wearing multi-purpose mat with anti-slip textured surface.
- ◆ Drainage channels and holes keep the surface clear of dirt and water.
- ◆ Built in bevelled edge for added trip resistance (120cm x 180cm mat only).
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 10mm.

Black only

Code	Metric	Imperial	Type
UT4872	120cm x 180cm	4' x 6'	Mat
UT3916	100cm x 5m	3' x 16'	Rolls
UT3933	100cm x 10m	3' x 33'	

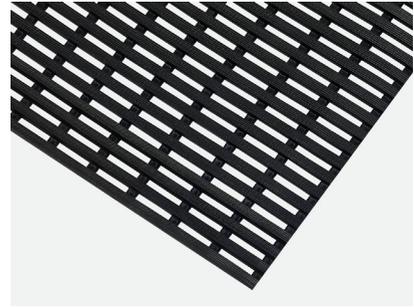

Typical applications: Construction, distribution, industrial and engineering environments. can also be used for roof walkways

Interflex

- ◆ Ultimate multi-use slip resistant mat, designed to withstand extensive foot traffic.
- ◆ Two-layer construction and channelled underbars automatically self-drain when faced with large amounts of water, oil, grease, or chemicals.
- ◆ The mats embossed surface provides exceptional grip, whilst the anti-microbial and anti-fungal additives ensure excellent hygiene.
- ◆ Easy to cut and contours to uneven surfaces, UV resistant.
- ◆ Excellent sound absorption properties.
- ◆ Resistant to most acids, alkaline and oils.
- ◆ Material: Flexible PVC, 100% recyclable.
- ◆ Overall height: 11mm.
- ◆ Connector clips for side or end joining - sold separately.

Code	Metric	Imperial	Type
IF2433	60cm x 10m	2' X 33'	Rolls
IF3233	80cm x 10m	3' x 33'	
IF3933	100cm x 10m	3' x 33'	
IF24	60cm wide	2' wide	Cut length - per m
IF32	80cm wide	3' wide	
IF39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

Connector

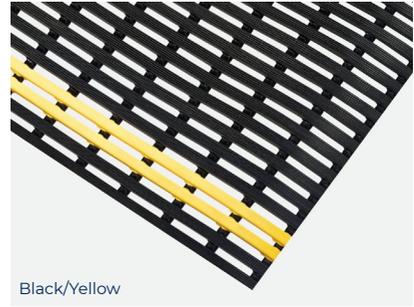

Typical applications: Perfect for all wet environments plus welding, oily and heavy industrial areas, machine workshops

Interflex Hazard

- ◆ Hardwearing anti-slip resistant mat, designed to self drain making it suitable for outdoor and indoor use.
- ◆ High visibility yellow strips for workplace safety.
- ◆ Suitable for heavy duty industrial use where slip hazards exist.
- ◆ Oil, grease and chemical resistant.
- ◆ Material: Soft PVC.
- ◆ Overall height: 12.5mm.
- ◆ Wind load tested: Up to 80mph.
- ◆ Connector clips available for easy joining - sold separately.

Code	Metric	Imperial	Type
IH2433	60cm x 10m	2' X 33'	Rolls
IH3233	80cm x 10m	3' x 33'	
IH3933	100cm x 10m	3' x 33'	
IH24	60cm wide	2' wide	Cut length - per m
IH32	80cm wide	3' wide	
IH39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

Typical applications: Processing and manufacturing industry plus welding, oily and heavy industrial areas, machine workshops.

Spaghetti Site Mat PVC

- ◆ Heavy-duty durable PVC looped construction for maximum wear and tear resistance.
- ◆ Self-draining design keeps the surface clear of dirt and water.
- ◆ High visibility colours available.
- ◆ Long roll length ideal for construction site walkways; can be cut to any size.
- ◆ Perfect for indoor and outdoor surface protection.
- ◆ Customisable with company logos, text, or warning information.
- ◆ Material: 100% PVC.
- ◆ Overall height: 12mm.

Code	Metric	Imperial	Type
TC440	120cm x 12m	4' x 40'	Roll

Typical applications: Walkway or ground cover for construction, engineering and industrial environments

SiteMat

- ◆ Cost-effective anti-slip protection.
- ◆ Versatile, durable, and lightweight.
- ◆ Provides exceptional non-directional grip due to its diamond-embossed chequer plate pattern.
- ◆ The bright yellow colour enhances visibility.
- ◆ Material: 100% PVC.
- ◆ Thickness: 2mm.

Yellow only

Code	Metric	Imperial	Type
CR2100-1-5	100cm x 5m	4' x 16'	Roll
CR2100-1	100cm x 10m	3' x 33'	Roll

Typical applications: Ideal for enhancing safety and visibility in construction site walkways and other high-traffic areas

Sticky Step Plastic

- ◆ Anti-microbial adhesive sticky plastic sheets.
- ◆ Removes dirt from shoes, wheels, etc. on contact.
- ◆ 30 peel-off layers for maintaining a clean surface at all times.
- ◆ Bottom layer adheres to any clean, dry floor.
- ◆ 4 mats per pack/120 sheets.
- ◆ Sheet thickness, 0.055mm + 5%.
- ◆ Peel adhesion, 433g/25mm (top layer), 1071g/25mm (bottom layer).
- ◆ Material: Polyethylene film coated with acrylic (water soluble) adhesive.
- ◆ Overall height 2mm.

Suitable for indoor use

Typical applications: Maintaining clean room and laboratory standards, operating theatres, intensive care units, data centres and pharmaceutical, electronics, aerospace, instrumentation, nuclear and construction environments

Code	Metric	Imperial
SP1845	48cm x 110cm	2' x 4'
SP2436	60cm x 90cm	2' x 3'
SP3660	90cm x 150cm	3' x 5'

PVC Backed Coir

- ◆ Time-proven traditional entrance matting material for indoor mat wells and foyers.
- ◆ Exceptional moisture and dirt trapping properties with brush-like action on shoe soles.
- ◆ Easily cut to any size without requiring edge binding.
- ◆ Material: 100% natural coir with PVC backing for added stability.
- ◆ Overall height: 17mm.

Natural only

Suitable for indoor use

Code	Metric	Imperial	Type
CO3941	100cm x 12.5m	3' x 41'	Roll
CO1701	100cm wide	3' wide	Cut length - per m

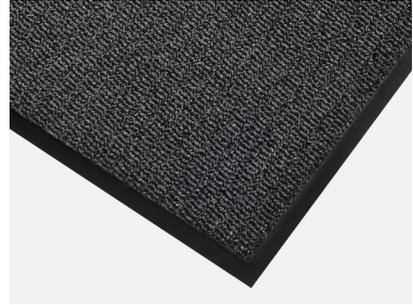

Typical applications: Schools, offices, commercial establishments, retail, residential, industrial entrances and construction site cabins

Dayton

- ◆ Economically priced, hard wearing mat, perfect for medium footfall areas.
- ◆ The stain resistant, anti-slip vinyl backing ensures the mat stays in place.
- ◆ Thick dense pile effectively removes dirt and moisture.
- ◆ Available in a range of dirt-hiding mottled colours for an attractive appearance.
- ◆ Material: 100% polypropylene fibres with vinyl backing.
- ◆ Overall height: 7mm.

Code	Metric	Imperial	Type
DT2436	60cm x 90cm	2' x 3'	Mats
DT3648	90cm x 120cm	3' x 4'	
DT3660	90cm x 150cm	3' x 5'	
DT4872	120cm x 180cm	4' x 6'	
DT4896	120cm x 240cm	4' x 8'	
DT36*	90cm wide	3' wide	Cut length - per m

*Available in Anthracite only

Suitable for indoor use

Typical applications: Schools, universities, public buildings, residential, retail, sports facilities, offices and on construction sites

Plushway

- ◆ Hardwearing all-purpose mat, ideal for moderate to high traffic areas.
- ◆ Plush pile effectively traps and removes soil, dirt, and provides excellent moisture control.
- ◆ Offers floor surface protection and helps prevent slips, trips, and falls.
- ◆ Available in various sizes and colours to suit individual requirements.
- ◆ Material: Polypropylene fibres heat bonded to a heavy duty PVC vinyl base.
- ◆ Overall height: 7mm.

Code	Metric	Imperial
PM2436	60cm x 90cm	2' x 3'
PM3648	90cm x 120cm	3' x 4'
PM3660	90cm x 150cm	3' x 5'
PM310	90cm x 300cm	3' x 10'
PM4872	120cm x 180cm	4' x 6'
PM4896	120cm x 240cm	4' x 8'

Suitable for indoor use

Typical applications: Offices, schools, universities, public buildings, hotels, shops, sports facilities, restaurants, offices and on construction sites

Fingerbrush

- ◆ Designed for external use, withstands extreme weather and heavy foot traffic.
- ◆ Hundreds of flexible rubber bristles remove dirt and clean shoes quickly.
- ◆ Anti-trip bevelled rubber border reduces the risk of trips.
- ◆ Anti-slip underside detail prevents mat movement.
- ◆ Material: 100% natural rubber.
- ◆ Overall height: 14mm.

Black only

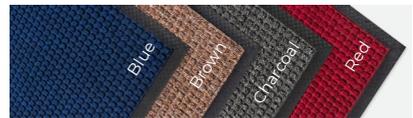

Typical applications: Schools, offices, commercial establishments, retail, residential, industrial and on construction sites

Code	Metric	Imperial
FB2432	60cm x 80cm	2' x 3'
FB3239	80cm x 100cm	3' x 3'
FB3672	90cm x 180cm	3' x 6'

Aquasorb

- ◆ All-round high performance mat with crush resistant raised waffle design for aggressive scraping and cleaning action.
- ◆ Extremely tough solid rubber perimeter, making it ideal for medium to heavy traffic areas.
- ◆ The slip resistant backing minimises movement on all surfaces.
- ◆ Material: Decalon fibres bonded to a tough rubber base.
- ◆ Overall height 9mm.

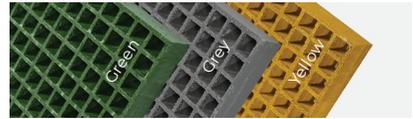

Typical applications: Schools, universities, public buildings, sports facilities, shopping malls, offices and on construction sites

Code	Metric	Imperial
AM2436	60cm x 90cm	2' x 3'

AM4872	120cm x 180cm	4' x 6'

GRP Grating

- ◆ Moulded non-slip composite floor solution.
- ◆ Constructed from the highest quality fiberglass making it lightweight and chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Cost-effective alternative to traditional materials like mild steel, stainless steel, aluminium, or wood.
- ◆ Limited tooling and installation costs.
- ◆ Standard and bespoke sizes available with in-house cutting service.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in 25mm, 38mm and 50mm thickness.
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.
- ◆ Please note, cutting tolerance +/- 5mm.

Code	Size	Thickness
GR3939-25	996mm x 996mm	25mm
GR3960-25	1492mm x 996mm	25mm
GR3979-25	1985mm x 996mm	25mm
GR3910-25	3010mm x 996mm	25mm
GR4812-25	3660mm x 1220mm	25mm
GR3939-38	996mm x 996mm	38mm
GR3960-38	1492mm x 996mm	38mm
GR3979-38	1985mm x 996mm	38mm
GR3910-38	3010mm x 996mm	38mm
GR4812-38	3660mm x 1220mm	38mm
GR4812-50	3665mm x 1225mm	50mm

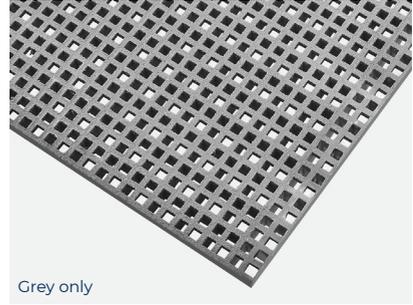

Typical applications: Platforms, walkways, flooring, ramps and covers for industrial or construction sites, chemical and shipping industries as well as offshore oil rigs

GRP Mini Mesh

- ◆ Moulded non-slip composite floor solution.
- ◆ Constructed from the highest quality fiberglass making it lightweight, chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Cost-effective alternative to traditional materials like mild steel, stainless steel, aluminium, or wood.
- ◆ Limited tooling and installation costs.
- ◆ Standard and bespoke sizes available with in-house cutting service.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness 30mm.
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.
- ◆ Please note, cutting tolerance +/- 5mm.

Grey only

Typical applications: Platforms, walkways, pontoons, flooring, ramps and covers for industrial or construction sites, chemical and shipping industries as well as offshore oil rigs

Code	Size	Thickness
GR4913-30	4038mm x 1262mm	30mm

GRP Waffle Boards

- ◆ GRP Waffle Boards deliver unparalleled traction even in the harshest of conditions, especially in snow and icy weather.
- ◆ Constructed from the highest quality fibreglass making them lightweight, chemical, rust, and corrosion resistant ensuring longevity and durability.
- ◆ Perfect solution for any off-road scenario as they can efficiently bear a vehicle's weight.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in 25mm and 38mm thickness and sold in pairs.
- ◆ Please note, cutting tolerance +/- 5mm.

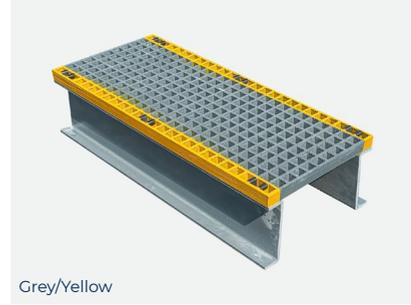

Typical applications: Essential for off-road recovery including recreational off-roading to emergency and military operations

Code	Size	Thickness
GR1239-25	996mm x 310mm	25mm
GR1239-38	996mm x 310mm	38mm

GRP Step Over Platform

- ◆ Offers immediate safety and protection against trip hazards, with yellow edging enhancing safety further to alert users to potential hazards.
- ◆ Made from high-quality GRP (Glass Reinforced Plastic) Grating and GRP Angle Profile for long-lasting performance.
- ◆ Resistant to all environmental conditions and harsh chemicals, ensuring longevity and reliability.
- ◆ Lightweight, making it easy to handle and install whilst maintaining strength and stability.
- ◆ Suitable for both indoor and outdoor use; can be used as a standalone platform or integrated into a larger access system.
- ◆ Designed with a textured surface to provide excellent traction and prevent slips, even in wet or oily conditions.
- ◆ Free-standing and does not require permanent installation or anchoring, making it easy to reposition as needed.
- ◆ Material: GRP (Glass reinforced polyester) The grating has a resin coated gritted surface.
- ◆ Available in various lengths, widths, and clearance heights, with options for bespoke sizes.
- ◆ Please note, cutting tolerance +/- 5mm.

Grey/Yellow

Typical applications: Perfect for safely navigating over obstacles such as pipes, cables, and equipment in industrial facilities, rooftops, utility plants, and construction sites

Code	Size
G-SP1839-138	464 x 996 x 138mm (100mm clearance)

G-SP4848-238	1220 x 1220 x 238mm (200mm clearance)

GRP Angle Profile

- ◆ GRP Angle designed to be used with our vast range of GRP grating.
- ◆ Provides best-practice fixing methods for fastening grating panels or creating frames and truss structures.
- ◆ Can be easily cut to any length using our in-house cutting service.
- ◆ Constructed from the highest quality fibreglass making it lightweight, chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Available in Grey (RAL 7000).
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.

Code	Metric	Thickness
G-AP51-3	50.8mm x 50.8mm x 3m	6.35mm
G-AP51	50.8mm x 50.8mm x 6m	6.35mm
G-AP76-3	76.2mm x 76.2mm x 3m	9.5mm
G-AP76	76.2mm x 76.2mm x 6m	9.5mm

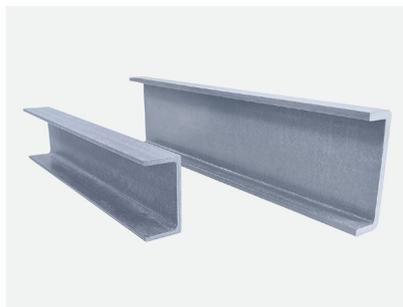

Typical applications: Perfect fixing solution for grating panels or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

GRP U Profile

- ◆ GRP U Profile is designed to be used with our vast range of GRP grating.
- ◆ Provides best-practice support for large openings or voids, primarily used in the load-bearing parts of structures.
- ◆ Can be easily cut to any length using our in-house cutting service.
- ◆ Constructed from the highest quality fibreglass making it lightweight, chemical, rust, and corrosion resistant, ensuring longevity and durability.
- ◆ Certified to EN 13706.
- ◆ Available in Grey (RAL 7000).
- ◆ Fixing clips, bolts, and clamps are available to purchase separately.

Code	Metric	Thickness
G-UP100-3	101.6mm x 50.8mm x 3m	6.35mm
G-UP100	101.6mm x 50.8mm x 6m	6.35mm
G-UP150-3	152.4mm x 42.8mm x 3m	9.5mm
G-UP150	152.4mm x 42.8mm x 6m	9.5mm
G-UP200-3	203.2mm x 55.6mm x 3m	9.5mm
G-UP200	203.2mm x 55.6mm x 6m	9.5mm

Typical applications: Perfect support solution for grating panels, or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

GRP Grating Accessories

- ◆ GRP Grating Clips and Clamps complement our range of GRP Grating and provide best-practice fixing methods for fastening and joining grating panels.
- ◆ We supply M Clips and C Clips to fit 25mm, 38mm and 50mm Grating, M Clip for Mini Mesh, universal J Clamp and our Square Fixing Clip and Fixing Disc for 25mm, 38mm and Mini Mesh Grating.
- ◆ Material: Stainless steel.

Code	Description
CC-25SS	Stainless Steel C Clip for 25mm Grating c/w fixing bolt
CC-38SS	Stainless Steel C Clip for 38mm Grating c/w fixing bolt
CC-50SS	Stainless Steel C Clip for 50mm Grating c/w fixing bolt
MC-25SS	Stainless Steel M Clip for 25mm Grating
MC-38SS	Stainless Steel M Clip for 38mm Grating
MC-50SS	Stainless Steel M Clip for 50mm Grating
MC-19SS	Stainless Steel M Clip for Mini Mesh Grating
JC-38SS	Stainless Steel J Clamp
FC45SS	Stainless Steel Square Fixing Clip
FD45SS	Stainless Steel Fixing Disc 45mm
M8-35SS	Stainless Steel M8 x 35mm Bolt/Nut/Washer Set

Rawl ETA Throughbolt Anchor

- ◆ Designed for use with our range of Angle and U Profiles.
- ◆ Use for medium to heavy loads.
- ◆ Easy installation.
- ◆ For use in cracked and uncracked concrete, seismic loads C1 and C2, and static or quasi-static loads.
- ◆ Approved for fire resistance R30 to R120.
- ◆ Material:
 - ◆ Shaft: Carbon steel, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Washer: DIN 125 or DIN 9021, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Nut: DIN 934, zinc plated $\geq 5 \mu\text{m}$.
 - ◆ Clip: Carbon steel, sherardized $\geq 40 \mu\text{m}$.

Code	Size	Per
B011-543ZF	90mm x 10mm diameter	Rawl Anchors (pack of 100)

Typical applications: Perfect fixing solution for grating panels, or creating frames and truss structures for industrial or construction sites, chemical and shipping industries, water treatment plants as well as offshore oil rigs

Anti-Slip GRP Flat Sheet

- ◆ Immediate solution for providing highly effective anti-slip flooring to minimise the risk of slips, trips and falls.
- ◆ Designed to be fitted directly onto concrete, metal, wood and much more.
- ◆ The simple design allows for quick and easy installation.
- ◆ Corrosion, water, oil, and chemical resistant.
- ◆ Perfect for marking out walkways and providing clear access routes with inherent strong anti-slip properties.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Size	Colour Options
FS3248	800mm x 1220mm	Black, Grey, Yellow
FS3910	1000mm x 3000mm	Black
FS4848	1220mm x 1220mm	Black, Grey, Yellow
FS4859	1220mm x 1500mm	Black, Yellow
FS4896	1220mm x 2440mm	Black, Grey, Yellow
FS4810	1220mm x 3000mm	Black, Yellow

Typical applications: An affordable solution for platforms, walkways, bridges, flooring, ramps and stair covers and can be used on industrial or construction sites, in schools, residential areas, commercial premises and sport and leisure facilities.

Anti-Slip GRP Stair Nosing

- ◆ Extremely high anti-slip rating.
- ◆ Moulded fibreglass stair nosing offer a cost-effective way to increase stairway safety.
- ◆ Can be applied to existing concrete, metal, or wood steps.
- ◆ Robust fibreglass GRP construction withstands harsh conditions and the heavy-duty grit surface protects against delamination, unlike metal-backed alternatives.
- ◆ Impregnated fire-retardant additives ensure excellent fire and heat resistance (ASTM E84 compliant).
- ◆ Lightweight and easy to handle.
- ◆ Simple installation.
- ◆ Hardwearing and long-lasting.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Profile Size	Length

SN0359*	30mm x 70mm	1.5m
SN0379*	30mm x 70mm	2m
SN0310*	30mm x 70mm	3m

*Not available in Black/Yellow

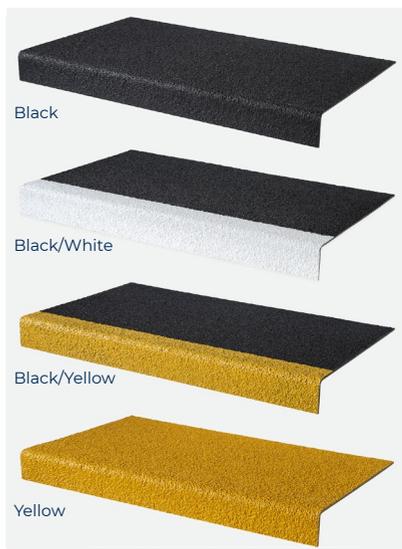

Typical applications: Schools, residential, leisure, construction, commercial and industrial environments

Anti-Slip GRP Stair Tread

- ◆ Extremely high anti-slip rating.
- ◆ Moulded fibreglass stair tread covers offer a cost-effective way to increase stairway safety.
- ◆ Suitable for concrete, metal, or wood steps.
- ◆ Robust fibreglass GRP construction withstands harsh conditions and the heavy-duty grit surface protects against delamination, unlike metal-backed alternatives.
- ◆ Impregnated fire-retardant additives ensure excellent fire and heat resistance (ASTM E84 compliant).
- ◆ Lightweight and easy to handle.
- ◆ Simple installation.
- ◆ Hardwearing and long-lasting.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Overall thickness: 4mm.
- ◆ Please note, cutting tolerance +/- 3mm.

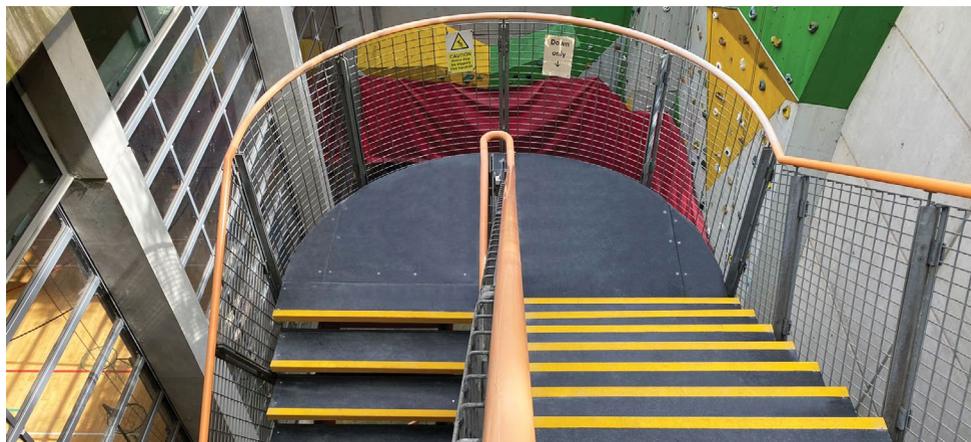

Code	Profile Size	Length

STI479	55mm x 345mm	2m
STI410	55mm x 345mm	3m
STI412*	55mm x 345mm	3.6m

* Only available in Black/White and Black/Yellow

Typical applications: Schools, residential, leisure, construction, commercial and industrial environments

Anti-Slip GRP Decking Strips

- ◆ Extremely high anti-slip rating.
- ◆ Direct fixing to various floor surfaces for immediate safety improvement.
- ◆ Corrosion and water, oil, and chemical resistant.
- ◆ Simple installation process.
- ◆ Can be supplied pre-drilled.
- ◆ Material: GRP - Glass reinforced polyester with a resin coated gritted surface.
- ◆ Available in two profile sizes: 50mm and 90mm.
- ◆ Overall thickness: 3mm.
- ◆ Please note, cutting tolerance +/- 3mm.

Code	Size
DS0230	50mm x 750mm
DS0239	50mm x 1m
DS0259	50mm x 1.5m
DS0279	50mm x 2m
DS0210	50mm x 3m
DS0439	90mm x 1m
DS0459	90mm x 1.5m
DS0479	90mm x 2m
DS0410	90mm x 3m

Typical applications: Industrial or construction sites, plus in schools, residential areas, commercial premises and sport and leisure facilities

GRP Fixing Screws

- ◆ Screw fixings designed for use with our GRP products, providing best-practice fixing methods to most substrates.
- ◆ Material: The fixings come in steel, bright zinc plate and powder coated lacquer where coloured.
- ◆ Perfect for use with our Anti-Slip GRP Flat Sheets, Anti-Slip GRP Decking Strips, Anti-Slip GRP Stair Nosings, and our Anti-Slip GRP Stair Treads.

Code	Description	Colour Options
SCRI1000 (200)	R2 CSK Cutter Screw 4.0 x 25	Gold, Bright Zink Plate
SCRI1001 (200)	R2 CSK Cutter Screw 4.0 x 40	Gold, Bright Zink Plate
SCRI1002 (200)	R2 CSK Cutter Screw 5.0 x 40	Gold, Bright Zink Plate
SCRI1003 (Each)	R2 CSK Cutter Screw 4.0 x 40	Lacquered Black, Lacquered Yellow

GRP Adhesive and Sealant

- ◆ Adhesive designed for use with our GRP products and can be used to bond GRP to most substrates including metal, wood, concrete and brick.
- ◆ Material: Solvent free sealant and adhesive combining the best qualities of silicone and polyurethane technologies.
- ◆ Perfect for use with our Anti-Slip GRP Flat Sheets, Anti-Slip GRP Decking Strips, Anti-Slip GRP Stair Nosings, and our Anti-Slip GRP Stair Treads.

Code	Description	Colour
GRPA1000	Sealant and Adhesive 290ml	Clear

Diamond Grip Tape – General Purpose

- ◆ Self-adhesive anti-slip tape for medium to high traffic areas.
- ◆ Waterproof, oil and grease resistant, including most chemicals.
- ◆ Provides excellent grip levels for added safety.
- ◆ Available in rolls or stair tread cleats.
- ◆ Easy application with application temperature range of 10°C - 50°C.
- ◆ Strong adhesion: 5.5kg / 25mm.
- ◆ Material: Aluminium Oxide (80 grit) with solvent acrylic adhesive.
- ◆ Overall height: 0.8mm.

Code	Metric	Imperial	Type
DGGP01	25mm x 18.3m	1" x 60'	Rolls
DGGP02	50mm x 18.3m	2" x 60'	
DGGP04	100mm x 18.3m	4" x 60'	
DGGP06	150mm x 18.3m	6" x 60'	
DGGP624	610mm x 150mm	2' x 6"	Cleat

Typical applications: Industrial and construction sites, commercial premises, universities, public buildings, residential, retail, sports facilities and offices

Diamond Grip Tape – Hazard

- ◆ Self-adhesive anti-slip tape for medium to high traffic areas.
- ◆ Hazard design to increase awareness.
- ◆ Waterproof, oil and grease resistant, including most chemicals.
- ◆ Provides excellent grip levels for added safety.
- ◆ Available in rolls or stair tread cleats.
- ◆ Easy application with application temperature range of 10°C - 50°C.
- ◆ Strong adhesion: 5.5kg / 25mm.
- ◆ Material: Aluminium Oxide (80 grit) with solvent acrylic adhesive.
- ◆ Overall height: 0.8mm.

Black/Yellow

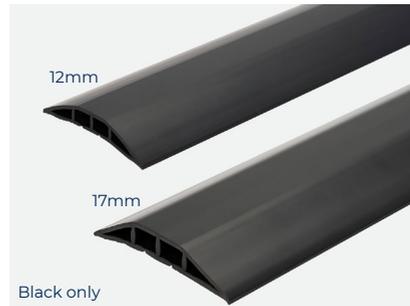

Code	Metric	Imperial	Type

DGHZ02	50mm x 18.3m	2" x 60'	
DGHZ04	100mm x 18.3m	4" x 60'	
DGHZ06	150mm x 18.3m	6" x 60'	
DGHZ624	610mm x 150mm	2' x 6"	Cleat

Typical applications: Industrial and construction sites, commercial premises, universities, public buildings, residential, retail, sports facilities and offices

PVC Cable Protector

- ◆ All-purpose cable protector, a simple and cost-effective solution to prevent trip hazards from trailing wires and leads.
- ◆ Two separate internal channels allow easy cable insertion through the base slot, ensuring they lay flat on the floor surface.
- ◆ Quick installation without the need to disconnect wires.
- ◆ Self-adhesive backing adheres to carpets or hard floors.
- ◆ Cable protectors help to comply with safety regulations.
- ◆ Material: Soft PVC.
- ◆ Available in two thicknesses: 12mm and 17mm.
- ◆ Capacity: 12mm - 2 x 8mm cables and, 17mm - 2 x 11mm cables.

Black only

Code	Metric	Imperial	Thickness
CP375	75mm x 3m	3" x 10'	12mm
CP310	100mm x 3m	4" x 10'	17mm

Typical applications: Offices, storage areas, workshops, warehouses, events, shows and exhibitions

Sport and Leisure

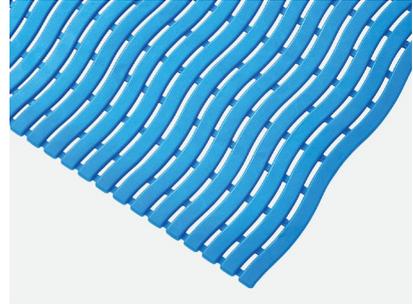

Facilitating fun while offering underfoot comfort and safety.

As the sports and leisure industry continues to grow, our matting solutions play a pivotal role in elevating the experience for participants and visitors alike. Our range of products are specially designed to cater to the unique demands of this dynamic sector, making them perfect for leisure centres, gyms, outdoor play areas, golf courses, and so much more.

From barefoot comfort and reducing slip hazards to offering shock-absorbing benefits, improving noise control and comfort to ensuring erosion control and safety requirements, we're confident we'll have the right product for you.

Kumfi Step

- ◆ Free-draining matting for ultimate barefoot comfort and anti-slip protection in wet areas.
- ◆ Stays non-slip and sturdy even with soapy water.
- ◆ Anti-bacterial treated plastic prevents fungi and bacteria growth.
- ◆ Available in various colours, and can be cut to fit any size. Connector clips are available to create larger widths - sold separately.
- ◆ Material: Mixed soft and hygienic polyethylene.
- ◆ Overall height: 9mm.

KM250	60cm x 15m	2' x 50'	Roll
KM24	60cm wide	2' wide	Cut length - per m
KMC	45mm x 5mm x 5mm	2" x 0.2" x 0.2"	Connector (pack of 40)

Typical applications: Poolside areas, saunas, changing rooms, shower areas and locker rooms

Trapwell Spaghetti Comfort

- ◆ Unbacked, free-draining reversible matting for safety in wet areas.
- ◆ Soft vinyl loops provide barefoot comfort.
- ◆ Customisable to fit any shape and around obstacles like pool handrails.
- ◆ Ideal for various leisure applications.
- ◆ Material: Vinyl.
- ◆ Overall height: 10mm.

Code	Metric	Imperial	Type
TC320	90cm x 6m	3' x 20'	Rolls
TC340	90cm x 12m	3' x 40'	
TCL440*	120cm x 12m	4' x 40'	
TC36	90cm wide	3' wide	Cut length - per m

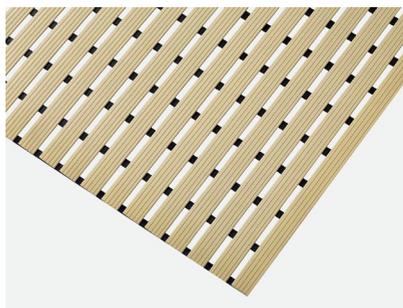

* Red and yellow only available at this size, all other products available in blue

Typical applications: Changing and shower rooms, saunas and around swimming pools

Interflex Style

- ◆ Strong, impact-resistant, flexible duckboard mat with a unique cross-ribbed design for barefoot hygiene, comfort, and stability.
- ◆ Free-draining surface, ideal for wet areas.
- ◆ Incorporates anti-microbial and anti-fungal additives for continuous hygiene.
- ◆ Easy installation and removal, can be cut to size for a perfect fit. Interflex Style can be rolled for easy storage.
- ◆ Resistant to most chemicals, acids, and caustic solutions (of commercially available concentration).
- ◆ Recyclable.
- ◆ Material: Soft PVC and unplasticized PVC.
- ◆ Overall height: 12mm.

Code	Metric	Imperial	Type
IS2433	60cm x 10m	2' x 33'	Rolls
IS3233	80cm x 10m	3' x 33'	
IS3933	100cm x 10m	3' x 33'	
IS24	60cm wide	2' wide	Cut length - per m
IS32	80cm wide	3' wide	
IS39	100cm wide	3' wide	

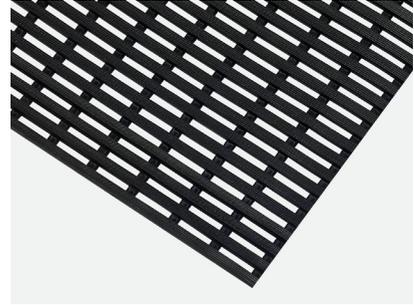

Typical applications: Swimming pools, therapeutic baths, changing and shower rooms, saunas and health and spa resort facilities. Interflex Style can also be used in hospitals

Interflex

- ◆ Ultimate multi-use slip resistant mat, designed to withstand extensive foot traffic.
- ◆ Two-layer construction and channelled underbars automatically self-drain when faced with large amounts of water.
- ◆ The mats embossed surface provides exceptional grip, whilst the anti-microbial and anti-fungal additives ensure excellent hygiene.
- ◆ Easy to cut and contours to uneven surfaces, UV resistant.
- ◆ Excellent sound absorption properties.
- ◆ Resistant to most acids, alkaline and oils.
- ◆ Material: Flexible PVC, 100% recyclable.
- ◆ Overall height: 11mm.
- ◆ Connector clips for side or end joining - sold separately.

Code	Metric	Imperial	Type
IF2433	60cm x 10m	2' X 33'	Rolls
IF3233	80cm x 10m	3' x 33'	
IF3933	100cm x 10m	3' x 33'	
IF24	60cm wide	2' wide	Cut length - per m
IF32	80cm wide	3' wide	
IF39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

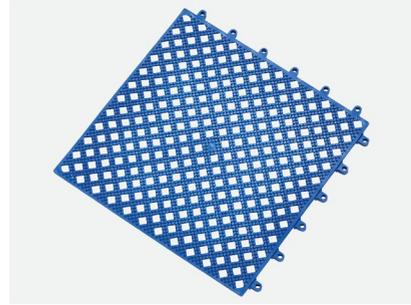

Typical applications: Swimming pools and therapeutic baths, changing rooms, health resort facilities, restrooms, workplaces, kitchens and catering facilities

Kumfi Tile PVC

- ◆ A very versatile high grip interlocking matting system.
- ◆ Designed to provide the ultimate in barefoot comfort and safety.
- ◆ Free flowing 4-way drainage design means the system is effective for indoor and outdoor, dry and wet environments.
- ◆ Simple and effective interlocking system ensures a firm, quick joint which can be easily, but not accidentally released.
- ◆ Lays to fit awkward shapes in any colour combination.
- ◆ System allows rapid extension or adaptation to its surroundings.
- ◆ Easy to clean - simply unclips into small sections.
- ◆ Material: Soft PVC.
- ◆ Overall height: 12mm.

Code	Metric	Imperial	Type
KT1212	30cm x 30cm	12" x 12"	Tile
KT1202	30cm x 5cm	12" x 2"	Bevel Edge

Typical applications: Swimming pools, showers, changing rooms and numerous other leisure applications

Greenskeeper

- ◆ Natural rubber matting for discreet soil retention and erosion control in outdoor spaces.
- ◆ Moulded anti-slip cellular structure allows grass to penetrate, establishing a firm bond to the ground and effectivity hiding the matting.
- ◆ Provides safety and traction on steep paths.
- ◆ Simple and economical installation.
- ◆ Easy maintenance - grass can be cut with a conventional mower once established.
- ◆ Certified to EN 1177:2018 for Critical Fall Height - 23mm mat only. Full test report available on request.
- ◆ Material: Natural and recycled rubber.
- ◆ Available in two thicknesses: 16mm and 23mm, with the 23mm option also available in a convenient 10.5 mtr roll.

Code	Metric	Imperial	Thickness	Type
GKS1015	100cm x 150cm	3' x 5'	16mm	Mat
GK1015	100cm x 150cm	3' x 5'	23mm	Mat
GK3934	100cm x 10.5m	3' x 34'	23mm	Roll
GKC	6.5cm x 6.5cm	3" x 3"	22mm	Connector
GKP	14cm long x 30mm dia head	6" long x 1" dia head		Peg (pack of 100)
GKT	200mm x 4.8mm	9" x 0.2"		Cable ties (pack of 100)

Black only

Suitable for outdoor use

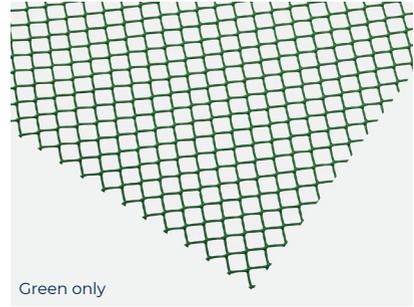

Typical applications: Walkways, golf courses, playgrounds and all outdoor spaces where anti-slip ground protection is needed

Greenskeeper Mesh

- ◆ Lightweight grass reinforcement matting made from extruded plastic and used as an underlay for Greenskeeper.
- ◆ Designed to protect and strengthen grass and turf.
- ◆ Easy to install, just unroll the mesh and secure with fixing pins
- ◆ Material: High density polyethylene.
- ◆ Overall height - 4mm.
- ◆ Available in 2m wide by 30m rolls

Green only

Suitable for outdoor use

Code	Metric	Imperial	Type
GKM7998	200cm x 30m	7' x 98'	Roll

Typical applications: For use as an underlay to Greenskeeper

Groundsafe

- ◆ Impact-absorbing natural rubber matting for safe playground and outdoor public area surfacing.
- ◆ Moulded anti-slip cellular structure allows grass penetration, forming a firm bond to the ground and effectively hiding the matting.
- ◆ Provides enhanced ground drainage and erosion protection in high foot traffic areas.
- ◆ Simple and safe installation without dangerous chemicals or adhesives.
- ◆ Can be cut to fit, or extended to create any shape or size. Connector clips for side or end joining - sold separately.
- ◆ Proven alternative to wet-pour or rubber tile safety surfaces.
- ◆ Easy maintenance - grass can be cut with a conventional mower once established.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 23mm.

Black only

Connector

Suitable for indoor and outdoor use

Code	Metric	Imperial	Type
GS1015	100cm x 150cm	3' x 5'	Mats
GSC	7cm x 7cm	3" x 3"	Connector

Typical applications: Playgrounds, walkways and all outdoor areas

Catering

Providing safe, comfortable, and hygienic flooring for the food industry.

The use of floor matting in the food and catering industries provides an essential blend of worker comfort and safety in the working environment. Our product range has been designed and manufactured to meet the specific requirements of this sector.

Anti-fatigue matting: Ideal for labour-intensive tasks that often require long periods of standing on hard floor surfaces. We also recommend our resilient nitrile rubber products for areas where fat and grease may be present.

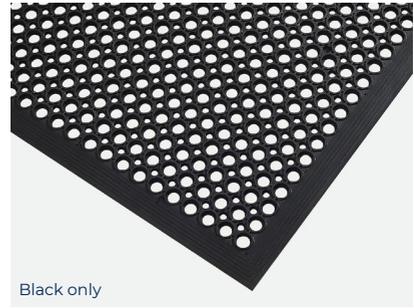

Slip prevention: Our matting solutions help prevent slips, trips, and falls, especially in areas where floors are often wet or greasy. Our open-top modular systems allow dropped food or liquids to fall through, minimising hazards and leaving a clean, safe surface.

Footwear cleaning and sanitisation: We offer matting to prevent the spread of bacteria and contamination, perfect for busy kitchens, food preparation areas, and entryways, where hygiene is paramount to ensuring the safety of your staff and customers.

Workzone

- ◆ Multi-purpose hardwearing mat, provides excellent anti-fatigue benefits.
- ◆ Anti-slip surface and bevelled edges on all four sides ensure worker comfort and safety.
- ◆ Honeycomb design traps swarf and disperses liquids quickly, leaving the surface clear.
- ◆ Available in a range of sizes to suit any environment.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

Code	Metric	Imperial	Type
WZ2436	60cm x 90cm	2' x 3'	Mats
WZ3248	80cm x 120cm	3' x 4'	
WZ3660	91cm x 150cm	3' x 5'	
WZ310	91cm x 3m	3' x 10'	Rolls
WZ320	91cm x 6m	3' x 20'	

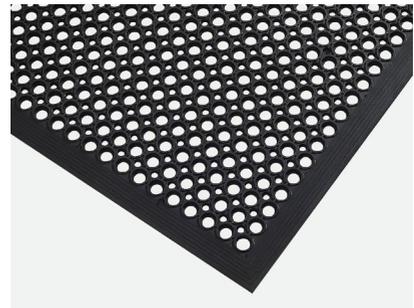

Black only

Typical applications: Kitchens, bars, restaurants and food preparation areas

Workzone – 75% Nitrile

- ◆ Multi-purpose oil and grease resistant mat with anti-slip surface and bevels on all sides to ensure safety.
- ◆ Open top design quickly disperses liquids, leaving the surface clear.
- ◆ Provides excellent anti-fatigue benefits.
- ◆ Available in a range of sizes to suit any environment.
- ◆ Material: Natural and recycled rubber.
- ◆ Overall height: 13mm.

Typical applications: Kitchens, bars, restaurants and food preparation areas

Code	Metric	Imperial	Type
WZN3660	91cm x 150cm	3' x 5'	Mat

Cushion Link Open Top – 100% Nitrile

- ◆ Modular anti-fatigue matting system, offering outstanding ergonomic comfort and safety.
- ◆ Interlocking mats with bevel system to create any size or shape.
- ◆ Open top design for excellent drainage and swarf removal.
- ◆ High quality resilient rubber, resistant to extreme temperatures and most chemicals and oils.
- ◆ Material: Nitrile rubber.
- ◆ Overall height: 19mm.
- ◆ Bevel edges sold separately.

Black only

Bevels available in both black and yellow

Suitable for indoor and outdoor use

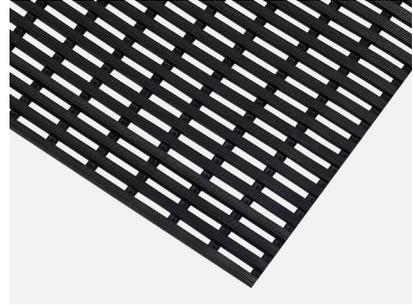

Code	Metric	Imperial	Type
CLO36NFR	92cm x 92cm	3' x 3'	Mat
CLS36BM	92cm x 5.5cm	3' x 2"	Bevel Male
CLS36BF	92cm x 5.5cm	3' x 2"	Bevel Female

Typical applications: Kitchens, bars, restaurants and food preparation areas

Interflex

- ◆ Ultimate multi-use slip resistant mat, designed to withstand extensive foot traffic.
- ◆ Two-layer construction and channelled underbars automatically self-drain when faced with large amounts of water, oil, or grease.
- ◆ The mats embossed surface provides exceptional grip, whilst the anti-microbial and anti-fungal additives ensure excellent hygiene.
- ◆ Easy to cut and contours to uneven surfaces, UV resistant.
- ◆ Excellent sound absorption properties.
- ◆ Material: Flexible PVC, 100% recyclable.
- ◆ Overall height: 11mm.
- ◆ Connector clips for side or end joining - sold separately.

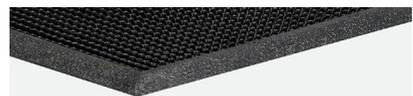

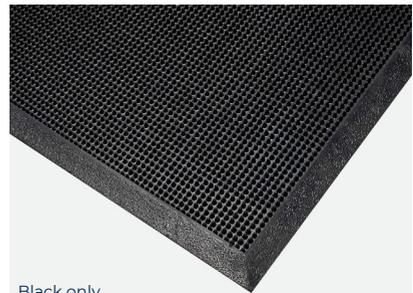

Code	Metric	Imperial	Type
IF2433	60cm x 10m	2' x 33'	Rolls
IF3233	80cm x 10m	3' x 33'	
IF3933	100cm x 10m	3' x 33'	
IF24	60cm wide	2' wide	Cut length - per m
IF32	80cm wide	3' wide	
IF39	100cm wide	3' wide	
IFC	30mm x 20mm x 10mm	1" x 1" x 0.4"	Connector

Typical applications: Kitchens, bars, restaurants and food preparation areas

Sanibrush

- ◆ Perfect hygienic solution for food preparation and processing areas as well as entrances.
- ◆ Ramped edges retain applied disinfectant solution.
- ◆ Raised nib design compresses under foot traffic, ensuring contact with the disinfectant.
- ◆ Provides excellent scrubbing action and anti-fatigue benefits.
- ◆ Material: 100% natural rubber.
- ◆ Overall height: 14mm.

Code	Metric	Imperial
SB2432	60cm x 80cm	2' x 3'
SB3239	80cm x 100cm	3' x 3'
SB3672	90cm x 180cm	3' x 6'

Typical applications: Kitchens, bars, restaurants and food preparation areas

Resources

Your guide to all things technical, product care and maintenance, our environmental commitment, plus our full product index.

Technical information

All Blue Diamond products have been meticulously manufactured to exceptionally high standards and performance tested, enabling them to be offered to today's demanding market with complete confidence.

Performance icons have been added to each product, to reflect not only the results of the tests but also feedback from users over the years. For the icons below, we've also included ratings from 1 to 3; the higher the rating, the greater effectiveness of the product.

Slip Resistant

ASTM C1028-89 & DIN-E-51130, 51097. These tests measure the force needed for load slippage on the material's surface. The coefficient of friction ratio, obtained by dividing force by weight, indicates slip resistance. The higher performance rating means better coefficient of friction and greater slip resistance.

Anti-Fatigue Properties

ASTM D3574. This is a simple deflection/compression test which gives a rating depending on the difference in height of a mat before and during the time a weight has been placed on it. The greater the difference, the better the anti-fatigue properties and overall performance.

Wear Resistant

ASTM D3844-92. An accelerated wear test involves measuring the complete loss of material weight after subjecting it to 5000 cycles under an abrasive wheel.

Water Absorbent

The rating reflects the amount of moisture per square metre the product can absorb.

Crush Resistant

This test simulates the impact when weight is applied. The higher the rating, the more resistant the mat.

Soil Resistant

The higher the rating, the greater the weight of dust and dirt is collected in the particular mat. This capability is greatly enhanced by the design and quality of the materials used in the manufacture of the mats.

The icons are there to help you choose the right product for you, your customers, and the application the product is being used in. You will find the full list of icons at front of this directory, you can also visit bluediamond.uk.com.

All of our products can be used for a wide variety of applications and you can find an overview of the typical applications beside each product. Remember, we're here to help you find the right product and you can be confident that when we recommend a product for a specific application, it will be the best solution available.

GRP chemical resistance

Product care and maintenance

Effective care and maintenance play a pivotal role in maximising the lifespan and usability of our products. Regular upkeep not only preserves their aesthetic appeal but also sustains their functional integrity over time. By adhering to recommended maintenance practices, such as routine cleaning and inspection, the lifespan of our products can be significantly prolonged. This proactive approach not only enhances safety but also minimises the need for premature replacements ultimately contributing to cost savings and promoting environmental responsibility.

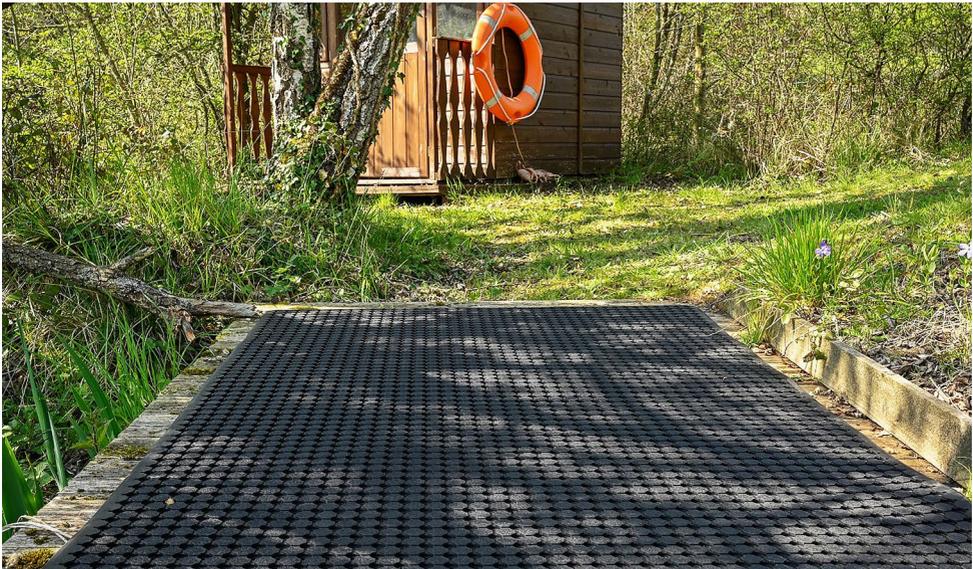

Please refer to our product data sheets at bluediamond.uk.com for specific cleaning information. You will also find recommended routine maintenance for our GRP range.

Our environmental commitment

Our Environmental procedures and ISO14001 accreditation embodies our commitment to actively reduce our environmental impact by continually reviewing and improving our environmental performance. Driving ecoefficiencies across our manufacturing processes is also integral to our business strategy and operating methods.

Our policy is to:

- ◆ Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- ◆ Continue to manufacture products that stand the test of time, achieved through a fusion of innovative design and sustainable manufacturing practices, and materials, all of which reflect our commitment to lasting quality and environmental responsibility.
- ◆ Implement sustainable packaging solutions that align with our commitment to reducing our ecological footprint.
- ◆ Meet our internal initiatives that include but are not limited to minimising our waste and reuse or recycle as much as possible, improved energy efficiency across all of our buildings, vehicles and processes, equipment innovation, and supplier and distributor engagement.
